Step-by-step check-box dissection instructions with accompanying illustrations and photos cover anatomical models and fresh or preserved specimens and provide helpful guidance during dissection labs. Tear-out Lab Reports contain checklists, drawing exercises, and questions that help demonstrate your understanding of the labs you have participated in and also allow instructors to check your progress. 250 illustrations include photos of cat, pig, and mink dissections, photos of various bones, microscopic and common histology slides, and depictions of proper procedures. Complete lists of materials for each exercise provide handy checklists for planning and setting up laboratory activities, allowing for easy and efficient preparation. Modern anatomical imaging techniques such as computed tomography (CT), magnetic resonance imaging (MRI), and ultrasonography are introduced to demonstrate how new technologies are changing and shaping health care. Review questions throughout the manual provide tools to reinforce and apply your knowledge of anatomy and function concepts. Eight eLabs improve the laboratory experience in an interactive digital environment. Convenient spiral binding allows for hands-free viewing in the lab setting.
