Picturing Canada Gail Edwards, Judith Saltman, 2014-07-31 The study of children's illustrated books is located within the broad histories of print culture, publishing, the book trade, and concepts of childhood. An interdisciplinary history, *Picturing Canada* provides a critical understanding of the changing geographical, historical, and cultural aspects of Canadian identity as seen through the lens of children's publishing over two centuries. Gail Edwards and Judith Saltman illuminate the connection between children's publishing and Canadian nationalism, analyse the gendered history of children's librarianship, identify changes and continuities in narrative themes and artistic styles, and explore recent changes in the creation and consumption of children's illustrated books. Over 130 interviews with Canadian authors, illustrators, editors, librarians, booksellers, critics, and other contributors to Canadian children's book publishing document the experiences of those who worked in the industry. An important and wholly original work, *Picturing Canada* is fundamental to our understanding of publishing history and the history of childhood itself in Canada.

A Mountain Alphabet Margriet Ruurs, 2011-11-30 Mountains are an impressive sight anywhere in the world, but those of the western mountain region of North America offer riches that are truly unique. This lavishly illustrated picture book presents snowcapped peaks, emerald lakes, tall pines, and magnificent maples, and a range of birds and animals that will fill readers of all ages with wonder. The treasures and mysteries of nature are depicted in twenty-six full-color paintings, each with a line of alliterative text. Objects that begin with that letter of the alphabet are waiting to be discovered in each illustration. Complete with detailed information about each setting, painted this is a visually and mentally stimulating experience from A to Z.

Playing with the Book Hannah Field, 2019-07-02 A beautifully illustrated exploration of how Victorian novelty picture books reshape the ways children read and interact with texts. The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to pull, pages that could fold out, pop-up scenes, and even mechanical toys mounted on pages. Analyzing books for young children published between 1835 and 1914, *Playing with the Book* studies how these elaborately designed works raise questions not just about what books should look like, but also about what reading is, particularly in relation to children's literature and child readers. Novelty books promised or threatened to make reading a physical as well as intellectual activity, requiring the child to pull a tab or lift a flap to continue the story. These books changed the relationship between pictures, words, and format in both

productive and troubling ways Hannah Field considers these aspects of children's reading through case studies of different formats of novelty and movable books and intensive examination of editions that have survived from the nineteenth century. She discovers that children ripped, tore, and colored in their novelty books despite these books' explicit instructions against such behaviors. Richly illustrated with images of these ingenious constructions, *Playing with the Book* argues that novelty books construct a process of reading that involves touch as well as sight, thus reconfiguring our understanding of the phenomenology of reading.

Instructor, 1974-08 *Native North Americans in Literature for Youth* Alice Crosetto, Rajinder Garcha, 2013-09-12

Native North Americans have rich and diverse cultures and traditions. However, many misconceptions, prejudices, and stereotypes exist due to the lack of understanding and ignorance of these cultures. It is important that children and adolescents learn about and appreciate the invaluable contributions that North American Native groups have made to American society. Equally important is the availability of resources that accurately and objectively portray the historical events that occurred when European settlers displaced thousands of Native North Americans from their ancestral homelands.

In *Native North Americans in Literature for Youth*, Alice Crosetto and Rajinder Garcha identify hundreds of appropriate and quality resources, including books, Internet sites, and media titles for K-12 students and educators. Entries are subdivided into chapters covering geographic regions, history, religions, social life, customs, and traditions, nations, oral tradition, biographies, and fiction. Additionally, there are chapters for general reference resources, curricular resources for educators, media, and Internet sites. Annotations provide complete bibliographical descriptions of the entries, and each entry is identified with the grade level for which it is best suited. Reviews, awards, series, and URLs for supplemental online resources are also included. Anyone, especially students, teachers, librarians, and parents interested in locating useful and accurate resources regarding Native North Americans will find this reference book a helpful and essential tool.
