 Carley,David Konisky,2025-10-13 On American energy and its persisting power to destroy In the United States the promise of
 a green energy future is complicated by its realities The country s legacy energy systems are decrepit the rollout of new
 technologies is unequal and piecemeal households find themselves increasingly without reliable or affordable access and
 Americans are excluded from the decisions that shape their energy futures Having power in America has become an exercise
 in race class and wealth in more ways than one Power Lines is a sweeping portrait of American energy in the twenty first
 century rendered in terms of its increasing and inevitable human costs Coal miners in West Virginia lose their livelihoods as
 energy markets change historically marginalized households cannot easily access new technologies children in sacrifice
 zones adjacent to mineral mining sites suffer health problems and limited resources and cities and towns are burdened from
 the production of alternative energies Sanya Carley and David Konisky show current challenges and an uncertain future of
 America s greatest policy imperative The result is not only sobering but also essential for planning and pursuing a clean
 energy transition that improves on the errors of the past **The Times Index** ,2007 Indexes the Times and its supplements
