

How to Write a Fantasy Series: Do's and Don'ts

Don't

Be unoriginal with fantasy tropes

What makes your world or mythical creatures unique?

Use clichés without your own twist

A portal's working should be credible for your world.

Use stock characters with no detail

Avoid blank hero-orphans or endlessly wise and capable, staff-carrying wizards.

Do

Make tropes your own

E.G. J.K. Rowling makes broomsticks sports equipment.

Update clichéd plot devices

Rowling's portal is an ordinary, real-world train station.

Make characters believable

Give each character motivations, goals, strengths, fears and flaws. Even Gandalf makes mistakes.

Literature and Ethics Daniel K. Jernigan, 2009 Literature and Ethics covers a wide gamut of literary periods and genres including essays on Victorian literature and modernism as well as several studies on narrative but the central ethos emerges from considerations of issues of responsibility and irresponsibility as they find expression in literary study and in ethics Students and academics who are interested in literary theory ethics narrative form and issues of authorial responsibility and how such matters inform the reading of literary texts will find that this collection offers a wide array of approaches and viewpoints by major figures from the relevant sub disciplines in literary studies The collection offers much timely critical observation on a variety of contemporary authors but also provides critically adventurous commentaries on Victorian literature and on Indian African Irish and Australian literature The volume assembles a collection of essays that would illustrate the great diversity of methods by which considerations of responsibility can and do offer insight into a range of literary texts and theoretical discourses while also making a contribution to the philosophical question of responsibility and irresponsibility in the contemporary world The collection as a whole testifies to the human fascination with issues of responsibility just as it testifies to the necessity of posing questions of responsibility as questions of ethics and literature the necessity of recognizing in other words that responsibility names a concept whose only ground is the history of those fictional narratives of responsibility and irresponsibility that modern civilization would do well to continue inventing and reflecting upon critically So whether ethical discourses find expression in theoretical debate or in and through the sophisticated fictions that constitute an imaginative culture what is clear both from wider discussions related to the value of literary texts that are such a central part of contemporary literary studies and from the varied and nuanced arguments that are made in this collection is that questions of responsibility are central to literature philosophy and the arts just as they are to the social realities that spawned them in the first place Literature and Ethics is an important book for all literature and literary theory collections It has specific resonance for students and teachers who are interested in the value of literary study and in questions of ethics and narrative
