Background

Ancient Egyptians developed a civilization in northeastern Africa in the Nile River valley. Ancient Egypt was an advanced civilization in many areas, including religion, architecture, transportation, and trade. Ancient Mesopotamia was one of the first civilizations that developed a form of government as well as organized people into political states.

Document 1

Egyptian civilization began close to the Nile River because the Nile provided a fertile area in the middle of a desert. The people depended on the Nile for food and water. Heavy rains caused the Nile to overflow regularly, which made the soil fertile and good for farming. The ancient Egyptians sang this song about the benefits of the Nile:

“When the [Nile] arises earth rejoices and all men are glad.... That givest drink to the desert places which are far from water

According to the song, what were two effects of the Nile’s rising waters? Tell them in your own words.

Why was the Nile so important to the Egyptians?

Document 2

This is a description of the role of a pharaoh, found on a tomb:

*“[A pharaoh] is a god by whose dealings one lives,
the father and mother of all... without an equal.”*

Based on the quotation, what did Egyptians believe made the pharaoh such a special person?

What type of power did the pharaoh possess in Egypt? Define the term.
