Ancient Hebrew Language And Alphabet:

The Ancient Hebrew Language and Alphabet Jeff A. Benner, 2004 The Hebrew Bible called the Tenach by Jews and Old Testament by Christians was originally written in the Hebrew language using an ancient pictographic or paleo Hebrew script Through the study of this ancient language and script the words of the Bible will come alive to the reader in a way never seen before This book will examine the origins and history of the ancient Hebrew language and script and their close relationship to the culture of the ancient Hebrews Included are detailed charts of the evolution of the ancient Hebrew script as well as many other related Semitic and non Semitic scripts Also included are the details of the root system of the Hebrew language and a lexicon of ancient Hebrew roots to assist the reader of the Bible with finding the original cultural context for many Hebrew words Unlocking the Ancient Hebrew Alphabet Code J. Babbitt, 2009-09-21 Unlocking the Ancient Hebrew Alphabet Code shows how to interpret many basic Hebrew words using the ancient pictographical meanings of the individual Hebrew letters Each letter tells a story Each combination of letters within a Hebrew word forms a picture story unto itself Biblical Hebrew was meant to be a living pictographical language based on combinations of word pictures each of which conveyed specific meanings Once this system of word pictures is understood Hebrew words come alive with nuances of meaning that no other language can match A picture may equal a thousand words but Hebrew words are beautifully alive with full color picture meanings **A Grammar of the Hebrew Language** Moses Stuart, 1828 A Grammar of the Hebrew Language of the Old Testament George Heinrich August von Ewald, Heinrich Ewald, John Nicholson, 1836 **His Name Is One** Jeff A. Benner, 2003 When we read an English translation of the Bible we define the words within it according to our modern vocabulary allowing our culture and language to influence how we read and interpret the Bible The Bible was written by ancient Hebrews whose culture and language was very different from our own and must be read and interpreted through their eyes When we define the names of God using our culture and language we lose the Hebraic meanings behind the original Hebrew names of God Consequently the true nature and character of God is hidden behind the veil of time and culture By understanding the various names of God through the vocabulary and language of the ancient Hebrews the nature and character of God is revealed to us in a new light The prophet Zechariah described the character of God with the words shmo ehhad translated as His Name is One Zechariah 14 9 This phrase beautifully describes the character of God from a Hebraic perspective that is lost to us through translation and unfamiliarity with ancient Hebrew culture
