Zimbabwe's Fast Track Land Reform Prosper B. Matondi, 2012-11-08 The Fast Track Land Reform Programme in Zimbabwe has emerged as a highly contested reform process both nationally and internationally The image of it has all too often been that of the widespread displacement and subsequent replacement of various people agricultural related production systems facets and processes The reality however is altogether more complex Providing new and much needed empirical research this in depth book examines how processes such as land acquisition allocation transitional production outcomes social life gender and tenure have influenced and been influenced by the forces driving the programme It also explores the ways in which the land reform programme has created a new agrarian structure based on small to medium scale farmers In attempting to resolve the problematic issues the reforms have raised the author argues that it is this new agrarian formation which provides the greatest scope for improving Zimbabwe s agriculture and development Based on a broader geographical scope than any previous study carried out on the subject this is a landmark work on a subject of considerable controversy

In eight chapters, the book expands on the scarce availability of community-based research on climate change and variability in Zimbabwe. The book is meant for college and university students and stakeholders involved in development work in rural minority farmer communities, especially in climate change-prone regions of Africa and other developing countries who have very few options of adaptation and mitigation. **Ethnic**

Federal Register, 2002-05-23. **Robert Mugabe**

Sue Onslow, Martin Plaut, 2018-03-05. Zimbabwe's President Robert Mugabe sharply divides opinion and embodies the contradictions of his country's history and political culture. As a symbol of African liberation and a stalwart opponent of white rule, he was respected and revered by many. This heroic status contrasted sharply in the eyes of his rivals and victims with repeated cycles of gross human rights violations. Mugabe presided over the destruction of a vibrant society, capital flight, and mass emigration precipitated by the policies of his government, resulting in his demonic image in Western media. This timely biography addresses the coup led by some of Mugabe's closest associates that forced his resignation after thirty-seven years in power. Sue Onslow and Martin Plaut explain Mugabe's formative experiences as a child and young man, his role as an admired Afro-nationalist leader in the struggle against white settler rule, and his evolution into a political manipulator and survivalist. They also address the emergence of political opposition to his leadership and the uneasy period of coalition government. Ultimately, they reveal the complexity of the man who stamped his personality on Zimbabwe's first four decades of independence.
