Understanding Sustainability with Pedagogical Practice Osvaldo Muñiz Solari,Gabriele Schrüfer,2023-07-30 This
 book shares with an international audience of teachers scholars and policymakers the experience of pedagogical practices to
 facilitate sustainability in the world Sustainability is seen here as a journey toward the end state of sustainable development
 Therefore the authors contribute different roads to engage teachers and students with pedagogical discourse Overall the
 book demonstrates the value of powerful knowledge through action oriented learning based on a bottom up process
 Consequently pedagogical practices are understood as the instructional approaches based on a social constructivist model in
 which active learning is performed with student to student engagement Secondary teachers in social sciences and university
 professors in geography find the study to be a valuable source of stimulation for incorporating new ideas and resolving
 common problems in their learning and teaching environments Education policymakers around the world also benefit from
 the only publication that presents international perspectives on geographical knowledge related to sustainability The
 contributing authors are experienced scientists in the field of geography education who are giving special attention to
 pedagogical practices that promote new directions toward sustainable thinking This book is the first outcome of an
 international collaboration officially established in 2023 between the Department of Geography and Environmental Studies at
 Texas State University and the Department of Geography at the University of Bayreuth *Designing and Teaching
 Undergraduate Capstone Courses* Robert C. Hauhart,Jon E. Grahe,2015-01-12 Enrich your students and the institution with a
 high impact practice Designing and Teaching Undergraduate Capstone Courses is a practical research backed guide to
 creating a course that is valuable for both the student and the school The book covers the design administration and teaching

of capstone courses throughout the undergraduate curriculum guiding departments seeking to add a capstone course and allowing those who have one to compare it to others in the discipline The ideas presented in the book are supported by regional and national surveys that help the reader understand what's common what's exceptional what works and what doesn't within capstone courses The authors also provide additional information specific to different departments across the curriculum including STEM social sciences humanities fine arts education and professional programs Identified as a high impact practice by the National Survey of Student Engagement NSSE and the Association of American Colleges and Universities LEAP initiative capstone courses culminate a student's final college years in a project that integrates and applies what they've learned The project takes the form of a research paper a performance a portfolio or an exhibit and is intended to showcase the student's very best work as a graduating senior This book is a guide to creating for your school or department a capstone course that ties together undergraduate learning in a way that enriches the student and adds value to the college experience Understand what makes capstone courses valuable for graduating students Discover the factors that make a capstone course effective and compare existing programs both within academic disciplines and across institutions Learn administrative and pedagogical techniques that increase the course's success Examine discipline specific considerations for design administration and instruction Capstones are generally offered in departmental programs but are becoming increasingly common in general education as well Faculty and administrators looking to add a capstone course or revive an existing one need to understand what constitutes an effective program Designing and Teaching Undergraduate Capstone Courses provides an easily digested summary of existing research and offers expert guidance on making your capstone course successful

Stimuli for Entrepreneurship Magdalena Streicher,2019-03-12 Stimulating entrepreneurial activity has become a priority for government policy around the globe This dissertation investigates efforts to promote entrepreneurship at the individual company and regional level in three self contained essays First at the individual level the effectiveness of entrepreneurship education in nurturing entrepreneurial skills attitudes and intentions is examined among high school

students

Second at the company level the potential of short term support schemes to accelerate the growth of early stage ventures is explored

Third at the regional level the development of entrepreneurial activity precipitated by transformational events at large corporations presents the most extensive unit of analysis

Together these studies inspire a nuanced discussion of how entrepreneurship can be encouraged at different stages of development and in various settings

After Piketty Heather Boushey, J. Bradford DeLong, Marshall Steinbaum, 2017-05-08 Are Thomas Piketty's analyses of inequality on target Where should researchers go from here in exploring the ideas he pushed to the forefront of global conversation In *After Piketty* a cast of economists and other social scientists tackle these questions in dialogue with Piketty in what is sure to be a much debated book in its own right

The Rise and Fall of Civic Education Michael Learn, 2024-09-16 Social studies is a field in crisis The crisis stems from failure to establish the very foundation of social studies purpose in public education civic education Social studies advocates have never put forth a coherent method for teaching civic education because policymakers and the public have been unable to agree upon a general definition of civic education This issue has disrupted the field since the early days As educators sought to include civic education within public schools as a dedicated field social studies evolved into a blending of history social sciences and civic education Social studies evolution never resolved the differences between the three with each discipline striving to control the narrative Instead of creating a unified field the disciplines devalued social studies and thus any discipline associated with it

The Rise and Fall of Civic Education: The Battle for Social Studies in a Shifting Historical Landscape investigates the changing definitions and purposes ascribed to social studies in the United States through time This result is viewed through the rising tensions from culture wars as America's divisive politics fight to control the narrative of the disciplines within social studies
