Research in Education ,1972 Other Rivers Peter Hessler,2024-08-29 Memorable One of China s most astute and sensitive foreign observers Financial Times Compassionate full of warmth Guardian More than twenty years after teaching English to China s first boom generation at a small college in Sichuan Province Peter Hessler returned to teach the next generation At the same time Hessler s twin daughters became the only Westerners in a student body of about two thousand in their local primary school Through reconnecting with his previous students now in their forties members of China s Reform generation and teaching his current undergraduates Hessler is able to tell an intimately unique story about China s incredible transformation over the past quarter century In the late 1990s almost all of Hessler s students were the first of their families to enrol in higher education sons and daughters of subsistence farmers who could offer little guidance as their children entered a brand new world By 2019 when Hessler arrived at Sichuan University he found a very different China and a new kind of student an only child whose schooling was the object of intense focus from a much more ambitious and sophisticated cohort of parents Hessler s new students have a sense of irony about the regime but mostly navigate its

restrictions with equanimity and embrace the astonishing new opportunities China's boom affords. But the pressures of this system of extreme meritocracy at scale can be gruesome even for much younger children including his own daughters who give him a first hand view of raising a child in China. In Peter Hessler's hands China's education system is the perfect vehicle for examining what's happened to the country where it's going and what we can learn from it. At a time when relations between the UK and China fracture *Other Rivers* is a tremendous indeed an essential gift a work of enormous human empathy that rejects cheap stereotypes and shows us China from the inside out and the bottom up using as a measuring stick this most universally relatable set of experiences. As both a window onto China and a distant mirror onto our own education system *Other Rivers* is a classic a book of tremendous value and compelling human interest. **Christian Home Educators'**
