

MBAT 3B Anagene case quiz

Stemmer News 10/1 at 10:15pm

Quiz instructions

Please read the Anagene case (provided in the accompanying lecture accompanying quiz). There is no time limit for this quiz, but you are only allowed to complete it once. This quiz will be primarily a reflection of how well I encourage you to think carefully about the questions, and will benefit your learning of the material and your preparation for the in-classroom discussion.

Question 1

11 pts

Many do you think the profit margin for Anagene's cartridges has been fluctuating? Is there attributable to the actual number of cartridges sold or the change in the number of the existing system that are using the cartridge the most?

The actual number of cartridges sold has not changed. The company revised the estimated number of cartridges produced and revised the definition of the usage per unit. This led to the estimated number of cartridges change. Fluctuating company revenue is attributable to the change in quantity of cartridges sold because of the change.
