

Staff Member: _____
 Start Date of Competency: _____

Job Title: _____
 Unit: _____

This competency has been assigned to the staff member indicated above and must be completed as part of their assigned role. This competency may need to be renewed at a designated future date to ensure the staff member maintains their skill.

The Staff Member will discuss with their Preceptor on their previous experiences and skills in establishing a plan and goals for successfully demonstrating their ability to meet the performance elements of the competency.

The Preceptor will discuss with the Staff Member the best approach to ensure their success in meeting the performance requirements for this competency. The Preceptor will date and initial each performance element when they validate that the Staff Member has met the requirement of the element and can deliver this aspect of care without direct supervision. The Preceptor should indicate in the Notes column any areas that the Staff Members should focus on to gain greater proficiency as they continue to develop. If the Preceptor has any concerns regarding the Staff Member's ability to meet the performance elements and successfully complete this policy, they should document their concerns on the Notes column and contact their Supervisor for direction.

and authoritative guide to effective teaching methods for the challenging task of teaching the epidural technique. Traditionally teaching this technique has relied on observation and hands on experience with a tutor. However the book proposes the use of simulators and other new tools to aid learning and explores methods of assessing learning outcomes. Additionally the volume editor draws on his 30 years of experience as a clinical teacher and current scientific studies to develop a comprehensive understanding of effective teaching methods. The book also discusses promising new tools such as virtual reality metaverse and eye tracking based teaching which have the potential to revolutionize the way medical professionals learn and practice clinical skills. By exploring these emerging technologies the book offers a forward looking perspective on the future of medical education. Overall this book is a valuable resource for those interested in teaching the epidural technique and for medical educators more broadly. Its consideration of new technologies makes it forward looking and provides insights into the future of medical education.
