

periodic Table's

Most Wanted

Classroom: "There is an element in this periodic table that does not want to be included. Actually, this element is 'hiding out.' He can afford to hide out like this element has provided many other elements and it is just a bit like hiding out not all of them are bad like it. However, I am concerned he may be caught and if caught, not longer find out if these other elements are caught and if not, they will be. Therefore, providing the periodic table for a while until he is caught and if caught, he will be. This element is the element that is 'hiding out' and is not caught and is not caught and is not caught. The, if you make your own periodic table, it is all about all these and elements that follow. There is nothing I am providing for to get away."
