remain ethically embedded and their national orientation to which they are politically wedded Like any organisation within

Margarida Cadima,2023-07-11 American novelist Edith Wharton 1862 1937 is best known today for her tales of the city and  
the experiences of patrician New Yorkers in the Gilded Age This book pushes against the grain of critical orthodoxy by  
prioritizing other species of spaces in Wharton s work For example how do Wharton s narratives represent the organic  
profusion of external nature Does the current scholarly fascination with the environmental humanities reveal previously  
unexamined or overlooked facets of Wharton s craft I propose that what is most striking about her narrative practice is how  
she utilizes adapts and translates pastoral tropes conventions and concerns to twentieth century American actualities It is no  
accident that Wharton portrays characters returning to or exploring various natural localities such as private gardens public

parks chic mountain resorts monumental ruins or country estate follies Such encounters and adventures prompt us to imagine new relationships with various geographies and the lifeforms that can be found there The book addresses a knowledge gap in Wharton and the environmental humanities especially recent debates in ecocriticism The excavation of Wharton s words and the background of her narratives with an eye to offering an ecocritical reading of her work is what the book focuses on     Peninsular Methodist ,1894     The Freemason and Masonic Illustrated.
