Jonathan Zimmerman,2022-08-26 In this expanded edition of his 2002 book Zimmerman surveys how battles over public education have become conflicts at the heart of American national identity Critical Race Theory The 1619 Project Mask mandates As the headlines remind us American public education is still wracked by culture wars But these conflicts have shifted sharply over the past two decades marking larger changes in the ways that Americans imagine themselves In his 2002 book *Whose America* Zimmerman predicted that religious differences would continue to dominate the culture wars Twenty years after that seminal work Zimmerman has reconsidered arguments over what American history is what it means and how it is taught have exploded with special force in recent years In this substantially expanded new edition Zimmerman meditates on the history of the culture wars in the classroom and on what our inability to find common ground might mean for our future **Foundations of Method for Secondary Schools** I. N. Thut,Joseph Raymond Gerberich,1949 The balance

between the emphases on method and content is not everywhere the same and varies from system to system from school to school from classroom to classroom This text has been developed over a period of years in response to a need for a new perspective on educational method Under the influence of the curriculum movement the purposes of the school and the objectives of teaching have undergone serious revision New content has been introduced to supplement rather than replace the old and a variety of methods are called for and teaching procedures must be adapted to the sought goals This text seeks to provide the needed perspective and to bring a closer coordination between method and content *Resources in*
