RATU BANGSAWAN, 2020-04-16 In Indonesia where English is regarded as foreign language the teaching of this subject at most schools are still focused on the mastery of grammar and vocabulary Moreover the teaching and learning process is still using teacher centered approach Although there are four skills listening speaking reading and writing should be covered in the teaching of this subject but the fact some teachers are still reluctant teaching speaking into practice Therefore there is no improvement for both students who learn and teachers who teach and its application in the real world situation What students learn only what is printed on the books and practice it in front of the class The main problem usually comes from both teachers and students that they are non active speaking speakers But this can be solved by using Communicative Language Teaching Since the use of technology such as video television audiotapes the internet computer soft etc can come to aid of such teachers and yang students Using Communicative Language Teaching CLT will Help students to use the target language in an authentic and meaningful way **USING SCAFFOLDING TECHNIQUE TO IMPROVE VOCABULARY ACHIEVEMENT OF THE FIFTH GRADE PUPILS OF SD NEGERI 1 SEMBAWA BANYUASIN III** ISTIQOMAH P. Assessing and Correcting Reading and Writing Difficulties Thomas G. Gunning,2002 This text provides numerous examples and thorough coverage of procedures for assessing and instructing struggling readers of all ages In keeping with current theory the text emphasizes prevention and early intervention It is based on the premise that student performance is variable and that assessment and instruction are planned and modified to meet the varied needs and levels of students

Gunning does not subscribe to a medical model that emphasizes deficiencies but rather focuses on what students can do. This text calls for inclusion not exclusion but recognizes that struggling learners need expert carefully planned assessment and instruction. Assessment coverage includes a grounding in basic concepts of tests and measurement. While formal standardized measures are described, emphasis is placed upon informal but highly regarded techniques such as the informal reading inventory, miscue analysis, running records, observation, think alouds, holistic scoring of writing, and portfolio assessment. In addition to chapters devoted specifically to assessment, ways to connect assessment and instruction are mentioned throughout the text. Coverage of instructional techniques is thorough and practical. Nine chapters are devoted to instructional techniques.
