Learning Interventions and Training: Providing Support during Health Emergencies Jamie Sewan

Johnston, Bruce Struminger, Qiang Zhang, Jane Noyes, Matthew Strehlow, Heini Utunen, 2025-05-15 Learning interventions and training methods are pivotal in preparing healthcare workers and the public to effectively respond to health emergencies. A knowledgeable and responsive workforce is essential to save lives, reduce suffering, and minimize socio-economic losses. The following public health emergency learning themes in the context of public health crises (i.e. pandemics, outbreaks, disasters, conflicts, etc.) could be considered for this research topic: Addressing learning needs in health emergencies (i.e. training approaches and methods to increase community resilience); Continued education just in time learning for the professionals in health response; Online learning; hybrid learning in person and other methodological choices for learning in emergencies; Health information dissemination for purposes of learning in health emergencies; Current successes and barriers in learning in health emergencies; practices for continued education; New horizons in learning in health emergencies; Research gaps in learning in health emergencies; Conceptual framework themes and review over time about learning in health emergencies. This could be ideally various article types including Original Research, Commentary, Review, Perspective, Brief Research Reports, and Conceptual Analyses. Articles covering the professional development of healthcare workers will be out of the scope of this collection. Topic Editor Prof Bruce Struminger received financial support via a grant from Pfizer. The other Topic Editors declare no competing interests with regard to the Research Topic subject. *Proceedings of the 5th International Conference on Decision Support System Technology - ICDSST 2019 & EURO Mini Conference 2019* Paulo Sérgio Abreu Freitas, Fátima Dargam, Rita Ribeiro, José Maria Moreno Jimenez, Jason Papathanasiou, 2019-05-27 **Reimagining**

Education Sharon Mistretta, 2024-01-24 Education stakeholders are at a crossroads where teaching and learning paths intersect with technologies fueled by emerging artificial intelligence. Educators who observe the residual effects of a global pandemic are left to wonder what creative technology solutions that sustain teaching and learning amidst mutating contagions should be retained, abandoned, or reimagined to create sustainable pedagogy practices. In this book about e-learning, invited authors analyze the impacts of overarching issues facing educators across the globe to rethink how they deliver content and assess students' learning. A global community of scholars and researchers contributed twenty chapters to examine artificial intelligence, alternative assessments, education policy, creative technology, creative lesson plans, and emerging workforce trends to foster emerging paradigms in the post-pandemic era. Study Guide and Student Solutions Manual for Use with Statistics John Banks, Robert K. Smidt, Donald H. Sanders, 1999-11 The main difference between this text and many others is that an attempt is made here to present material in a rather relaxed and informal way without omitting important concepts The text demonstrates the wide range of relevant issues and questions that can be addressed with the help of statistical analysis techniques by presenting over 1 750 realistic problems that arise often in health care the social and physical sciences education business and economics engineering and leisure activities It also convinces your students that statistics is do able

by including real data that students have collected and analyzed for class assignments and projects. Additionally, the text utilizes an intuitive common sense approach including occasional humorous situation or ridiculous name to develop concepts whenever possible. *Statistics A First Course* employs widely available inexpensive technologies particularly Minitab and the TI 83 graphing calculator. We also explore the use of the World Wide Web to collect data providing students with the means to obtain up to date information without leaving their desks. In short, this book is written to communicate with students rather than to lecture to them and its intent is to convince readers that the study of statistics can be a lively, interesting, and rewarding experience.
