

American Concrete Pumping Association **TOP SAFETY CONCERNS**

Hose Whipping Hazard

When first starting, after moving the pump, or whenever air may have entered the line, keep everybody a reasonable and prudent distance away from the discharge hose until concrete is flowing smoothly.

Power Line Hazard

Maintain at least a 20-foot distance from power lines (30 feet above 350kV).

Tipping Hazard

Outriggers must be completely extended and the unit jacked to within 1" of level, as described in the operation manual.

Driving Hazard

Rear-end collisions are the most common traffic accidents with concrete pumps. It takes a lot longer to stop a pump than a car. Remain alert and allow extra distance between you and the vehicle you're following.

Get a Spotter

Whenever power lines are in the area to be poured, insist on a dedicated spotter before extending your boom.

Texting / Mobile Device Warning

Never text or talk on your phone while driving or operating the concrete pump.
