Obligations of Citizenship and Demands of Faith Nancy L. Rosenblum,2021-04-13 Of the many challenges facing liberal democracy none is as powerful and pervasive today as those posed by religion These are the challenges taken up in Obligations of Citizenship and Demands of Faith an exploration of the place of religion in contemporary public life The essays in this volume suggest that two important shifts have altered the balance between the competing obligations of citizenship and faith the growth of religious pluralism and the escalating calls of religious groups for some measure of autonomy or recognition from democratic majorities The authors political theorists philosophers legal scholars and social scientists collectively argue that more room should be made for religion in today s democratic societies Though they advocate different ways of carving out and justifying the proper bounds of church and state in pluralist democracies they all write from within democratic theory and share the aim of democratic accommodation of religion Alert to national differences in political circumstances and the particularities of constitutional and legal systems these contributors consider the question of religious accommodation from the standpoint of institutional practices and law as well as that of normative theory Unique in its interdisciplinary approach and comparative focus this volume makes a timely and much needed intervention in current debates about religion and politics The contributors are Nancy L Rosenblum Alan Wolfe Ronald Thiemann Michael McConnell Graham Walker Amy Gutmann Kent Greenawalt Aviam Soifer Harry Hirsch Gary Jacobsohn Yael Tamir Martha Nussbaum and Carol Weisbrod

Financing Agriculture Value Chains in India Gyanendra Mani,P.K. Joshi,M.V. Ashok,2018-01-09 This book examines the successful private public and civil society models of

agriculture value chains in India and addresses relevant challenges and opportunities to improve their efficiency and inclusiveness It promotes the value chain approach as a tool to improve access to finance for small holder farmers and discusses the possible structure of and regulatory framework for the National Common Agricultural Market a term that featured in the Indian Finance Minister s 2014 15 budget speech and which is aimed towards standardizing and improving

transparency in agricultural trade practices across states under a single licensing system The book deliberates on the potential of developing innovative financial instruments into the value chain framework by supporting tripartite agreements between producers lead firms and financial institutions Its fourteen chapters are divided into three parts Agriculture Value Chain Financing Theoretical Framework Agriculture Value Chain Financing in Cases of Select Commodities and Institutional Framework for Agriculture Value Chain Financing Since the concept of value chain financing is being considered as a future policy agenda the book is of great interest to corporations dealing with agricultural inputs and outputs commercial regional rural and cooperative banks policy makers academicians and NGOs *The Great American Mission* David

Ekbladh,2011-08-28 The Great American Mission traces how America s global modernization efforts during the twentieth century were a means to remake the world in its own image David Ekbladh shows that the emerging concept of modernization combined existing development ideas from the Depression He describes how ambitious New Deal programs like the Tennessee Valley Authority became symbols of American liberalism s ability to marshal the social sciences state planning civil society and technology to produce extensive social and economic change For proponents it became a valuable weapon to check the influence of menacing ideologies such as Fascism and Communism Modernization took on profound geopolitical importance as the United States grappled with these threats After World War II modernization remained a means to contain the growing influence of the Soviet Union Ekbladh demonstrates how U S led nation building efforts in global hot spots enlisting an array of nongovernmental groups and international organizations were a basic part of American strategy in the Cold War However a close connection to the Vietnam War and the upheavals of the 1960s would discredit modernization The end of the Cold War further obscured modernization s mission but many of its assumptions regained prominence after September 11 as the United States moved to contain new threats Using new sources and perspectives The Great American Mission offers new and challenging interpretations of America s ideological motivations and humanitarian responsibilities abroad **Annual Editions** Bruce Stinebrickner,1995 Contains the Declaration of Independence and the Constitution of the

United States along with articles dating from 1987 1994 addressing issues in Congress the Judiciary Bureaucracy interest groups news media domestic and economic policy foreign and defense policy and elections political parties voters and public opinion Management ,1983 **Excellence for All** Jack Schneider,2010 Excellence For All American Education Reform 1983 2008 examines the history of school reform in the United States over the past quarter century Specifically the work examines an approach to educational change best characterized by the phrase excellence for all an equity focused policy phenomenon uniquely situated for the policymaking context of the late twentieth and early twenty first centuries The idea of promoting excellence for all students united a broad enough coalition to pursue a truly national reform effort and captured the imaginations of leaders in state and local government at philanthropic foundations in colleges and universities and in school districts across the country Led by a corps of self styled educational entrepreneurs aggressively pursuing reforms that

they could take to scale the movement sought to remake the American high school piece by piece The dissertation examines this reform movement through the nation's three largest districts New York Chicago and Los Angeles and through three particular change efforts a physical plant reform the small schools movement a personnel reform Teach For America and a curricular reform the Advanced Placement Program The work aims to establish the ways in which this most recent era of school reform represented a departure from previous reform eras strives to explain the movement's broad appeal and ultimately aims to understand its shortcomings by exploring the assumptions underlying the excellence for all approach and the tradeoffs required by it
