Efficiency of Investment Projects Peter Brusov, Tatiana Filatova, 2025-09-30 Existing investment models fail to correctly assess the efficiency of investments This happens due to both the lack of self consistent models based on first principles and the inability to correctly assess the discount rate This book describes innovative investment models tested in practice The authors modify these models for real implementation conditions including frequent payments of income tax and interest on debt at the end of periods and as advance payments and variable payments The book examines how these types of payments influence the efficiency of investment projects It

considers the efficiency of an investment project from two perspectives the owners of equity and debt and only the equity The latest versions of two main theories of capital structure Brusov Filatova Orekhova BFO and Modigliani Miller MM allow for the correct assessment of the discount rate when evaluating the efficiency of investment projects both long term and of arbitrary duration The book also describes the practical application of the created investment models and develops a new methodology for rating investment projects Corporate Finance for Long-Term Value Dirk Schoenmaker, Willem Schramade, 2023-09-13 This open access textbook offers a guide to corporate finance for modern companies that want to create long term value Drawing on recent literature on sustainable companies it starts by analysing the Sustainable Development Goals as a strategy for the transition to a sustainable economy Next it translates the general concept of sustainability into core corporate finance methods such as net present value company valuation cost of capital capital structure and M A Current corporate finance textbooks are primarily based on the shareholder model designed to maximise financial value This book instead adopts the integrated model which argues that companies have to serve the interests of their current and future stakeholders Accordingly companies move from simply maximising financial value to optimising integrated value which combines financial social and environmental value Applying this new paradigm of integrated value is the truly innovative feature of this textbook Written for undergraduate and graduate students of Finance Economics and Business Administration this textbook provides a fresh analysis of corporate finance Combining theory empirical data and examples from actual companies it reveals the sustainability challenges for corporate investment and shows how finance can be used to steer funds to sustainable companies and projects and thus accelerate the transition to a sustainable economy

Cracked it! Bernard Garrette, Corey Phelps, Olivier Sibony, 2018-06-08 Solving complex problems and selling their solutions is critical for personal and organizational success For most of us however it doesn't come naturally and we haven't been taught how to do it well Research shows a host of pitfalls trips us up when we try We're quick to believe we understand a situation and jump to a flawed solution We seek to confirm our hypotheses and ignore conflicting evidence We view challenges incompletely through the frameworks we know instead of with a fresh pair of eyes And when we communicate our recommendations we forget our reasoning isn't obvious to our audience How can we do it better In *Cracked It* seasoned strategy professors and consultants Bernard Garrette Corey Phelps and Olivier Sibony present a rigorous and practical four step approach to overcome these pitfalls Building on tried and tested but rarely revealed methods of top strategy consultants research in cognitive psychology and the latest advances in design thinking they provide a step by step process and toolkit that will help readers tackle any challenging business problem Using compelling stories and detailed case examples the authors guide readers through each step in the process from how to state structure and then solve problems to how to sell the solutions Written in an engaging style by a trio of experts with decades of experience researching teaching and consulting on complex business problems this book will be an indispensable manual for anyone interested in creating value
