Chapter 10.1

The following questions are just like questions you previously found on this checkpoint. However, you may not see all the same questions.

Question 1 of 10

All the investigators of three advertising campaigns were registered for an advertising research center. Randomly assigned for this advertising, each bought 1000 of different materials. All three parts of three campaigns, researchers also collected additional things about differences in performance and the total mean performance for each campaign.

Question 2 of 10

Advertising researchers claim that the power of advertising can be determined by design an effective internet advertising strategy that results in a better evaluation of the advertisement product. They develop the advertising tests with varying amounts of "low quality" bloggers. College students are randomly assigned to one of the six versions of the advertisement test and their reactions score of the advertisement is recorded.
