Flexible Pedagogy, Flexible Practice Elizabeth J. Burge, Chère Campbell Gibson, Terry Gibson, 2011 Flexibility has become a watchword in modern education but its implementation is by no means a straightforward matter Flexible and Distance Learning in Higher Education sheds light on the often taken for granted assumptions that inform daily practice and examines the institutional dynamics that help and hinder efforts toward flexibility Contributors to the volume were asked to reflect critically on a series of questions including What precisely is flexible learning Who or what is driving the flexibility agenda and for whose benefit And who or what is resisting it What challenges must be overcome in order to achieve flexibility and what are some of the compromises it can entail International in scope with authors from North America the United Kingdom Australia and New Zealand South Africa Singapore and Japan Flexible and Distance Learning in Higher Education offers a wealth of theoretical insights and practical experience that will be invaluable to anyone seeking to extend the reach of higher education

The Political Legacy of Colonialism in Zimbabwe Everisto Benyera, 2024-11-18 This book investigates the political legacy of colonialism in contemporary African institutions Using the case study of electoral and justice institutions in post colonial Zimbabwe the book explores how those in post colonial states relate to and with institutions initially designed to oppress them and remain structurally and systematically colonial The book argues that the colonial era colonised the land knowledge and minds of Africans resulting in injustice and epistemicides The book demonstrates how the critical institutions of elections and justice have been rendered anti black and toxic The book calls for Africa to invest in epistemic independence unencumbered by Western political modernity and then deploy that independence to build reconstituted institutions structures and systems that serve the interests of Africans This book will be an important read for African policymakers and researchers working on African politics governance and international relations
