Of Papers and Protests: Hong Kong responds to Occupy Central Volume 2 Guy Breshears, 2016-03-06 The protests continued and both sides settled into a siege mentality and refused to compromise The protests ended not with an agreement nor a truce but with the court that ordered the streets be cleared Later with the Legislative Council's vote about Beijing's election proposal a return to the status quo was enforced but did nothing for the lingering distrust between both sides This book deals with the government reactions to those protests It shows the various government public announcements court injunctions and US reports which were strongly criticized by the Hong Kong government Also included are the events of the Mong Kok riot during the 2016 Lunar New Year

China's Military Transformation You Ji, 2016-01-25 China's military transformation is one of the major geo strategic developments of the 21st Century Billions of dollars are being spent modernizing The People's Liberation Army PLA as China seeks to upgrade and expand its military capabilities to rival the US In this cutting edge analysis You Ji a leading expert on China's military affairs explores the changes taking place within the PLA today covering its ground aerospace and maritime forces its ability to meet asymmetric threats and the growing role played by the People's Armed Police in quelling dissent in China He shows how these transformations in personnel technology and strategic goals are slowly driving a wedge between China's two most powerful institutions Until recently relations between the CCP and PLA were harmonious but as the PLA becomes increasingly professionalized and autonomous so its unconditional loyalty to the ruling Party may weaken The changing relationship between the CCP and PLA he argues is likely to have profound implications for China's own political development and the balance of power in the Asia Pacific region Comprehensive and incisive this timely book is a valuable resource for anyone interested in the nature and consequences of China's military rise

Broken Altars Thomas Albert Howard, 2015-03-25 A sweeping history of the violence perpetrated by governments committed to extreme forms of secularism in the twentieth century A popular truism derived from the Enlightenment holds that violence is somehow inherent to religion to which political secularism offers a liberating solution But this assumption ignores a glaring modern reality that putatively progressive regimes committed to secularism have possessed just as much and often a vastly greater capacity for violence as those tied to a religious identity In *Broken Altars* Thomas Albert Howard presents a powerful account of the misery deaths and destruction visited on religious communities by secularist regimes in the twentieth century Presenting three principal forms of modern secularism that have arisen since the

Enlightenment passive secularism combative secularism and eliminationist secularism Howard argues that the latter two have been especially violence prone Westerners do not fully grasp this however because they often mistake the first form passive secularism for secularism as a whole But a disconcertingly more complicated picture emerges with the adoption of a broader global vision Admitting different species of secularism greater historical perspective and case studies drawn from the former Soviet Union Turkey Mexico Spain Czechoslovakia Albania Mongolia and China among other countries Howard calls into question the conventional tale of modernity as the pacifying triumph of secularism over a benighted religious past

Beyond Regimes Duara Prasenjit, Elizabeth J. Perry, 2020-10-26 For many years China and India have been powerfully shaped by both transnational and subnational circulatory forces This edited volume explores these local and global influences as they play out in the contemporary era The analysis focuses on four intersecting topics labor relations legal reform and rights protest public goods provision and transnational migration and investment The eight substantive chapters and introduction share a common perspective in arguing that distinctions in regime type democracy versus dictatorship alone offer little insight into critical differences and similarities between these Asian giants in terms of either policies or performance A wide variety of subnational and transnational actors from municipal governments to international organizations and from local NGO activists to a far flung diaspora have been and will continue to be decisive The authors approach China and India through a strategy of convergent comparison in which they investigate temporal and spatial parallels at various critical junctures at various levels of the political system and both inside and outside the territorial confines of the nation state The intensified globalization of recent decades only heightens the need to view state initiatives against such a wider canvas
