Ask the class: <i>What fraction of the class are girls? What fraction of the class have blond hair? Ask: How would we write this?</i> As a class find out the number of students who: Walk to school; Own a pet; Have a sister. Ask students how you would describe each as a fraction of the class? (You need to know the total number of students in the class first.) Write the fractions on the board.	Display ICT Starter 8.1 which shows a series of shapes with simple fractions shaded. Students have 10 seconds to estimate the shaded fraction before the answer appears. Click 'Play' to start, 'Pause' to stop. Use the arrows to adjust the time. Use 'Back' and 'Next' to move back and forth through the questions. 'Restart' returns the program to the start. Answers are displayed in both word form and fractional notation. Fractions used are halves, thirds, quarters and, in Q15, a sixth.
