**Standards of Practice in Construction Specifying** Dennis J. Hall, Nina M. Giglio, 2013-05-22

Construction Specifications provide critical information necessary to convey the design intent of the Architect and the legally enforceable contract requirements. Many factors must be considered by the Architect in the development of written construction documents including project delivery method, project ownership, sustainability and code requirements. This companion guide to the 2013 AIA National Convention Presentation Architect's Guide to Construction Specifications provides excerpts from important industry publications regarding the preparation of construction documents. Material was carefully selected from the following books: CSI Construction Specifications Practice Guide, Architect's Guide to the US National CAD Standard, CSI Construction Contract Administration Practice Guide, Architect's Handbook of Professional Practice 14e. Additional excerpts have been provided from CSI Formats to provide an overview of organizational standards for Specifications including MasterFormat, SectionFormat, PageFormat, PPDFormat. Added material includes examples for comment document types which can also be used as templates, Outline Specification, Short Form Specification, Certification and Seals Page and Addendum. This e-only book is an essential companion to the presentation or can stand alone as a necessary reference providing users ready access to key understanding of the methods of specifying, organizing structures for building information and other components that should be considered in the preparation of a project manual.

**The Architecture Student's Handbook of Professional Practice** American Institute of Architects, 2017-01-12

The essential guide to beginning your career in architecture. The Architecture Student's Handbook of Professional Practice opens the door to the vast body of knowledge required to effectively manage architectural projects and practice. A professional architect is responsible for much more than design; this book is specifically designed to help prepare you for the business and administrative challenges of working in the real world, whether you are a student or are just starting out in practice. It provides clear insight into the legal, financial, marketing, management and administrative tasks and issues that are integral to keeping a firm running. This new edition has been restructured to be a companion textbook for students undertaking architectural practice classes while also fulfilling the specific knowledge needs of interns and emerging professionals. It supplements information from the professional handbook with new content aimed at those setting out in the architectural profession and starting to navigate their careers. New topics covered in this new edition include path to licensure, firm identity, professional development, strategic planning and integrated project delivery. Whether you want to work at a top firm, strike out on your own or start the next up-and-coming team, the business of architecture is a critical factor in your success. This book brings the fundamentals together to give you a one-stop resource for learning the reality of architectural practice. Learn the architect's legal and ethical responsibilities. Understand the processes of starting and running your own firm. Develop, manage and deliver projects on time and on budget. Become familiar with standard industry agreements and contracts. Few architects were drawn to the profession by dreams of writing agreements and negotiating contracts, but those who excel at these everyday essential tasks impact their practice in innumerable ways. The Architecture Student's Handbook

of Professional Practice provides access to the nuts and bolts that keep a firm alive stable and financially sound
