

Aircraft Line Maintenance Planning

**Weigang, Li, Barros, Alexandre
de, Romani de Oliveira, Italo**

Aircraft Line Maintenance Planning:

Aviation Maintenance Management Frank H. King, 1986 This is a practical approach to and comprehensive examination of the problems that face the aviation supervisor The first chapter discusses the impact of population and geographic changes on the regulation of the airline industry Chapter 2 deals with The Federal Aviation Administration Chapter 3 with Regulatory Requirements and Chapter 4 with Organizational Structures Chapter 5 Management Responsibilities explores such practical aspects as directing programs leadership providing motivation and incentives and communication Chapter 6 Aviation Maintenance Procedures Chapter 7 Applications of Aviation Maintenance Concepts and Chapter 8 Budgeting Cost Controls and Cost Reduction also explore the daily problems of aviation supervision in practical terms Chapter 9 Training and Professional Development in Aviation Maintenance contains a discussion of certified aviation maintenance technical schools Chapter 10 is an in depth assessment of Safety and Maintenance Discussed here are safety in the maintenance hangar and on the ramp fueling aircraft electrical safety radiation concerns and building requirements Chapter 11 Electronic Data Processing covers the computer and applications of received data Chapter 12 Aviation Maintenance Management Problem Areas deals with matters ranging from parts ordering to administrative concerns The final chapter is a Forecast and Summary

Aviation Maintenance Management Harry Kinnison, 2004-05-25 This unique resource covers aircraft maintenance program development and operations from a managerial as well as technical perspective Readers will learn how to save money by minimizing aircraft downtime and slashing maintenance and repair costs Plan and control maintenance Coordinate activities of the various work centers Establish an initial maintenance program Develop a systems concept of maintenance Identify and monitor maintenance problems and trends

Maintenance Planning and Scheduling Timothy C. Kister, Bruce Hawkins, 2006-05-10 This is a hands on reference guide for the maintenance or reliability engineer and plant manager As the third volume in the Life Cycle Engineering series this book takes the guiding principles of Lean Manufacturing and Maintenance and applies these concepts to everyday planning and scheduling tasks allowing engineers to keep their equipment running smoothly while decreasing downtime The authors offer invaluable advice on the effective use of work orders and schedules and how they fit into the overall maintenance plan There are not many books out there on planning and scheduling that go beyond the theory and show the engineer in a hands on way how to use planning and scheduling techniques to improve performance cut costs and extend the life of their plant machinery The only book that takes a direct look at streamlining planning and scheduling for a Lean Manufacturing Environment This book shows the engineer how to create and stick to effective schedules Gives examples and templates in the back of the book for use in day to day scheduling and calculations

Interdisciplinary Research in Technology and Management Satyajit Chakrabarti, Ashiq A. Sakib, Souti Chattopadhyay, Sanghamitra Poddar, Anupam Bhattacharya, Malay Gangopadhyaya, 2024-05-30 IRTM 2023 We live in an interconnected world In the era of Industry 5.0

technology is getting embedded more and more in the way we learn live work and play This progression is accelerating at a pace never seen before Inter disciplinary and collaborative research across disciplines within the Technology domain and Management domain and across the Technology Management interface is opening up exciting new possibilities for solving problems whose solutions are beyond the scope of a single discipline domain or practice and helping to create a brave new world We are living in an incredible time of change Our effort to hold such an interdisciplinary conference in the virtual mode apparently resonated across the academic community as was evident from the huge response that the first ever conference on Interdisciplinary Research in Technology and Management IRTM held in February 2021 had received from participants across many countries This has encouraged the organizers to hold the next edition of the conference physically in Kolkata on a larger scale in the online mode The pandemic unleashed by Covid 19 in the last two years has shaken the socio economic foundations of countries and societies to a point where the world cannot be the same as before the pandemic It has re focused the world s attention on the priority of healthcare and healthcare infrastructure and its innovative management Inevitably questions have again been raised more vehemently on what kind of a world we want to live in Environmental concerns are being pursued with renewed vigour The urgency of developing new robust infrastructure relevant for the new world is gaining wider consensus By 2030 as reports suggest cyber physical systems internet of things and wearable technology will be everywhere and in everything renewable energy will power the world and digital entertainment will take centre stage among other developments The third edition of the conference on Interdisciplinary Research in Technology and Management attempts to spotlight the above concerns The number of tracks on which papers are invited from scholars researchers consultants and practitioners to share their interdisciplinary research and consultative work has been enlarged As before the papers will be peer reviewed and authors of the selected papers will be invited to present their papers in the IRTM conference The presentation of papers will be interspersed with Keynote Talks by eminent experts on the theme of the conference or individual domains
