and scope manufacturers to produce this remarkable work the author instructs the shooter on the mechanics of the long range hunting air rifle and scope and provides instructions on rifle servicing and maintenance He also discusses the precision alignment of the scope with the bore of the rifle on which it is mounted explains the use of the chronograph analyzes the fine tuning of hunting air rifles to improve their accuracy and examines the employment of night vision equipment and other devices for hunting at night and in dull light Fitness training for the shooter is covered as is the use of camouflage He also considers the mindset of the marksman and the techniques of marksmanship and describes two very demanding marksmanship tests Hunting with Air Rifles Mathew Manning,2010 *Total Airguns* Peter Wadeson,2013-12-01 The definitive reference work for this increasingly popular sport Fully revised and updated second edition includes the latest information on legal quarry species rifle types and equipment plus an important additional chapter covering the law and safety A must have for the modern day airgun hunter covering everything from choosing a rifle gun handling sighting systems ammo choices accessories the uses of camo fieldcraft and hunting techniques **Total Airguns** Pete Wadeson,2005 **The Airgun Hunters Chronicles** Miles Johannesburg,2013-01-17 For some hunting is a hobby a pastime even a sport Within the pages of this book are a collection of accounts and essays written by a man who wished to reinstate hunting to its passed glory as his and his family s only means to provide food for the body and nourishment for the soul A medium through which he could observe connect with and explore his environment not solely to exploit it Written over the course of a year Miles Johannesburg charts the changes in the seasons the habits of his prey with humour prose and vivid description He tests equipment experiments with age old techniques as well as manufacturing home made pellets Survivalist or hobbyist The Airgun Hunters Chronicles has something for anyone who has ever experienced a love for the great outdoors Airgun Fieldcraft Ian Barnett,2016-08-07 Do you like me gauge your normal life via a watch or clock with British Standard Time applied A wild creature won t It will follow the angle of the sun the rise of the moon the direction of the breeze the temperature of the day or night It will note the budding and the fall of the leaf the height of the crop and the ripeness of the fruit It will sense the breeding cycle of its mate the primeval need to mate and consequently the feeding and protection of its young It will rely on its knowledge of the prominence of its prey and the existence of its own predators It will live and breathe with a cautious eye at all times fixed on simply surviving each day To be a hunter you need to learn all these things that make wild creatures tick When I put aside the clock to ignore time pressures when I pick up the camera to record a wild creature when I sit in deep cover watching quarry with a gun when I shoot a wild creature a pest species I put aside my normal life I am in a different life with different nominal values and different priorities It is a life I often prefer over my normal life for it is deep pure precarious colourful exhilarating unpredictable non committal and forgiving When I m out there with a gun there is no one to criticise me but me The only expectations are mine Throughout this book I will frequently use an archaic and endearing term Mother Nature For I can think of no other term to describe the Tao the intangible spirit

that wraps itself around both man and beast in the wild Mother Nature influences birth and death season and weather dominance and subservience all in equal measure What she gives she also takes away in fair balance She I use the feminine deliberately for only a female could be so devastatingly beautiful and bountiful yet at times so viciously cruel This book isn't just for the air rifle hunter It is for anyone who roams the countryside attending to vermin in the interest of crop protection and conservation It is for the boy with the catapult for that's where I started and for the mature adult stepping onto the hunting trail late in life It doesn't matter what tool you carry the fieldcraft needed is the same But if I convince you by the time you reach the end of this book that the air rifle is a wonderful tool and capable of many tasks then it's been well worth writing Come take a walk with me around the woods and fields of Britain I will show you what where and how to hunt with that most versatile of tools the air rifle
