 Wheeler, 1999 The future of computing ever increasingly lies in ever increasing mobility in which computers continue their
 network operations while physically changing their location and code moves from system to system performing its designated
 tasks throughout a network This book brings together in one single resource the leading edge of research and practice in
 three areas of mobility process migration mobile computing and mobile agents Presented chronologically the papers in this
 book each written by leading experts in that particular area track the development of critical technologies that have
 influenced mobility Introductions by the editors and original afterwords by many of the papers authors provide information
 on implementation and practical application technological context and updates on the most recent advances The book
 highlights many common challenges and solutions inherent in various aspects of mobility infrastructure scalability security
 standards robustness naming and locating mobile entities and more Individual papers describe specific research and
 development in each of the three major areas covering such topics as An analysis of process migration from the earliest work
 to contemporary commercial systems Barriers to effective mobile connectivity mobile IP and ubiquitous computing
 Descriptions of various mobile agent systems such as Telescript Aglets Agent TCL and the mobile agent system standard

Practical Airsoft AEG Upgrade 2016 Edition Airsoftpress, 2016-01-08 Short for automatic electric gun AEG is a type
 of battery powered air gun capable of full semi auto firing An electric motor inside the AEG rotates a series of gears
 sequentially to drive the piston which in turn compresses the spring When the spring is released the piston is being pushed
 forward to produce compressed air and propel the bullets Due to such a complex internal structure power upgrade is never
 easy There is no substitute for good old fashioned know how By upgrading the gun yourself you are knocking out the hardest
 part of it first knowing what goes where The 2016 Edition of this book presents new concepts and practical skills reflecting
 the latest changes and trends in the airsoft industry New technologies such as Electric Blowback EBB and Electric Recoil
 Gun ERG are also included in the coverage After trying out the tricks and tips suggested in this book never hesitate to
 contact us should you believe there are mistakes waiting to be corrected there are always better ways of doing things
