

Shipping and Docking Containers
 From 1975 to 1979, the U.S. Coast Guard's Marine Safety Council reported that 1,100 containers were lost overboard from ships. The loss of containers is a major problem for the shipping industry. The U.S. Coast Guard is working with the shipping industry to develop a system of container marking and tracking. This system will allow the Coast Guard to identify and locate containers lost overboard. The system will also allow the shipping industry to track the location of containers lost overboard. The system will be implemented in 1985.
