Cook, 2013-06-20 Propitiating the supernatural forces that could grant bountiful crops or wipe out whole villages through natural disasters was a sacred duty in ancient Peruvian societies as in many premodern cultures Ritual sacrifices were considered necessary for this propitiation and for maintaining a proper reciprocal relationship between humans and the supernatural world The essays in this book examine the archaeological evidence for ancient Peruvian sacrificial offerings of human beings animals and objects as well as the cultural contexts in which the offerings occurred from around 2500 B C until Inca times just before the Spanish Conquest Major contributions come from the recent archaeological fieldwork of Steve Bourget Anita Cook and Alana Cordy Collins as well as from John Verano s laboratory work on skeletal material from recent excavations Mary Frame who is a weaver as well as a scholar offers rich new interpretations of Paracas burial garments and Donald Proulx presents a fresh view of the nature of Nasca warfare Elizabeth Benson s essay provides a summary of sacrificial practices

Andean Archaeology II Helaine Silverman, William H. Isbell, 2015-01-28 The origins and development of civilization are vital components to the understanding of the cultural processes that create human societies Comparing and contrasting the evolutionary sequences from different civilizations is one approach to discovering their unique development One area for comparison is in the Central Andes where several societies remained in isolation without a written language As a direct result the only resource to understand these societies is their material artifacts In this second volume the focus is on the art and landscape remains and

what they uncover about societies of the Central Andes region The ancient art and landscape revealing the range and richness of the societies of the area significantly shaped the development of Andean archaeology This work includes discussions on pottery and textiles iconography and symbols ideology geoglyphs and rock art This volume will be of interest to Andean archaeologists cultural and historical anthropologists material archaeologists and Latin American historians

The Colonial Andes Elena Phipps, Johanna Hecht, Cristina Esteras Martín, Metropolitan Museum of Art (New York, N.Y.), 2004 The arrival of the Spanish in South America in 1532 permanently transformed the Andean cultural landscape Within a generation societies that had developed over thousands of years including the great Inca Empire had been irrevocably altered The arts from the Spanish colonial period those that drew on native traditions such as textiles silver woodwork and stonework as well as painting sculpture and other genres introduced by the Spanish preserve an unspoken dialogue that developed between Andean and European modes of expression This beautiful book presents silver objects textiles and other masterpieces of colonial Andean culture Essays discuss the artistry of this culture and explain how it has been recently reevaluated and celebrated for its vibrant energy reflecting the convergence of two essentially distinct cultural traditions This book accompanies an exhibition at The Metropolitan Museum of Art September 29 to December 12 2004 Elena Phipps is conservator Textile Conservation and Johanna Hecht is associate curator European Sculpture and Decorative Arts at The Metropolitan Museum of Art **Andean Art at Dumbarton Oaks** Dumbarton Oaks, 1996 **The Worlds of the Moche on the North Coast of Peru** Elizabeth P. Benson, 2012-07-15 The Moche or Mochica created an extraordinary civilization on the north coast of Peru for most of the first millennium AD Although they had no written language with which to record their history and beliefs the Moche built enormous ceremonial edifices and embellished them with mural paintings depicting supernatural figures and rituals Highly skilled Moche artisans crafted remarkable ceramic vessels which they painted with figures and scenes or modeled like sculpture and mastered metallurgy in gold silver and copper to make impressive symbolic ornaments They also wove textiles that were complex in execution and design A senior scholar renowned for her discoveries about the Moche Elizabeth P Benson published the first English language monograph on the subject in 1972 Now in this volume she draws on decades of knowledge as well as the findings of other researchers to offer a grand overview of all that is currently known about the Moche Touching on all significant aspects of Moche culture she covers such topics as their worldview and ritual life ceremonial architecture and murals art and craft supernatural beings government and warfare and burial and the afterlife She demonstrates that the Moche expressed with symbolic language in metal and clay what cultures in other parts of the world presented in writing Indeed Benson asserts that the accomplishments of the Moche are comparable to those of their Mesoamerica contemporaries the Maya which makes them one of the most advanced civilizations of pre Columbian America Handbook of Museum Textiles, Volume 1 Seiko Jose, Sabu Thomas, Pintu Pandit, Ritu Pandey, Vandana Gupta, 2022-12-28 Handbook of Museum Textiles Textiles have been known to us throughout

Staller,2020-12-01 There is widespread acknowledgement among anthropologists archaeologists ethnobotanists as well as researchers in related disciplines that specific foods and cuisines are linked very strongly to the formation and maintenance of cultural identity and ethnicity Strong associations of foodways with culture are particularly characteristic of South American Andean cultures Food and drink convey complex social and cultural meanings that can provide insights into regional interactions social complexity cultural hybridization and ethnogenesis This edited volume presents novel and creative anthropological archaeological historical and iconographic research on Andean food and culture from diverse temporal periods and spatial settings The breadth and scope of the contributions provides original insights into a diversity of topics such as the role of food in Andean political economies the transformation of foodways and cuisines through time and ancient iconographic representations of plants and animals that were used as food Thus this volume is distinguished from most of the published literature in that specific foods cuisines and culinary practices are the primary subject matter through which aspects of Andean culture are interpreted *Inside Abstraction* Carolyn Dean,2025-09-23 Illuminating the abstract art of the Inka what it conveys about Inka values and its relationship to those who view it Inka visual culture is unusual in its tendency toward abstraction Public stonework vessels used at state feasts garments worn by the imperial elite these objects announcing status and power are adorned with geometric designs that refuse figuration After searching in vain for hidden referents many scholars have largely given up the search for meaning Inside Abstraction develops a novel interpretation Eminent art historian Carolyn Dean proposes that Inka geometries are neither ornamental nor coded depictions of other

objects Rather Dean shows that in the Andean world the designs were functionally self aware possessing perspectives of their own quite literally looking back at and addressing viewers directly Further Dean contends that these agent abstractions were teachers conveying particular messages concerning social hierarchy the relations among geometries and colors instructed viewers as to their own proper social relations Inka designs thereby served imperial aims by wordlessly communicating the state s values and demands for submission Extensively illustrated and rigorously argued Inside Abstraction is a dramatic step forward in our understanding of Inka art and political order
