Global Politics Ben Whitham, Andrew Heywood, 2023-03-09 A systematic and integrated analysis of the theory and practice of contemporary international relations covering traditional and critical theory core issues and recent developments in the field **Japan's New Left Movements** Takemasa Ando, 2013-10-08 The Fukushima Daiichi nuclear accident that followed the March 2011 tsunami and earthquake in Japan shocked the world In the wake the of the disaster questions were asked as to why Japanese antinuclear movements were not able to prevent those with vested interests such as businesses bureaucrats the media and academics from facilitating nuclear energy policies Taking this question as its starting point this book looks more widely at the development and powerlessness of Japanese civil society and seeks to untangle this intersection between social movements and civil society in postwar Japan Central to this book are the Japanese New Left movements that emerged in the 1960s and 1970s and the impact they have had on civil society and politics By focusing on a key idea that a wide range of new leftists shared the self revolution in everydayness Takemasa Ando shows how these groups did not seek immediate change in the realms of politics and legislation but rather it was believed that personal transformation would lead to broader social and political change By reconsidering the relationship between Japanese New Left movements of the 1960s and later social movements this book crucially connects the constructive and disruptive legacies of the movements and in doing so provides valuable insights into the powerlessness that plagues Japanese civil society today Presenting a comprehensive picture of the New Left movements and their legacies in Japan this book will be of great interest to students and scholars working in the fields of Japanese politics Japanese history and Japanese culture and society *De Europeanisering van belangengroepen en politieke partijen in Nederland* E. van Rooyen, 2009 In de periode 1990 2000 is de

Europese Unie veranderd van een te negeren internationale omgeving in een bestuurslaag waar niemand meer omheen kan. Wat heeft deze verandering teweeggebracht bij belangengroepen en politieke partijen? Hoe en in hoeverre hebben zij zich aan de EU aangepast in organisatorische en strategische zin? Het is van groot belang hier kennis van te hebben omdat belangengroepen en politieke partijen de cruciale verbindende schakels zijn tussen burger en Europese overheid. Het in 2005 gehouden referendum over het Grondwettelijk Verdrag heeft geleerd dat de relatie tussen Europa en zijn burgers niet zonder problemen is.

Theorist of Maritime Strategy J.J. Widen, 2016-02-17

Since its publication in 1911 Sir Julian's Corbett's *Some Principles of Maritime Strategy* has remained a key document within naval strategic thinking. Yet despite his undoubted influence Corbett's theories have not been subjected to scientific review and systematic comparison with other naval thinkers. In this assessment Dr Widen has provided a fresh interpretation of Corbett's legacy and his continued relevance as a classic theorist of naval war. Divided into three parts the book begins with a brief biographical overview of Corbett's life highlighting in particular his bibliographic history and the influences on his thinking. The latter two sections then describe and assess Corbett's views on military and naval theory respectively. Together these two parts represent his overall theory of maritime strategy including his conception of limited war his intellectual debt to Clausewitz command of the sea his critic of decisive battle as well as the different methods of naval operations. By means of a thorough assessment of Corbett's theory of maritime strategy Dr Widen highlights the continued relevance of his theories. Both the strengths and shortcomings of Corbett's thinking are discussed and reflections offered on their intellectual practical and doctrinal value. In so doing Dr Widen has written a book that deserves to be read by anyone with an interest in the past present or future of maritime strategy.
