Angels On The Head Of A Pin:

The Gates John Connolly, 2010-09-28 Young Samuel Johnson and his dachshund Boswell are trying to show initiative by trick or treating a full three days before Halloween which is how they come to witness strange goings on at 666 Crowley Road The Abernathys don't mean any harm by their flirtation with the underworld but when they unknowingly call forth Satan himself they create a gap in the universe a gap through which a pair of enormous gates is visible The gates to Hell And there are some pretty terrifying beings just itching to get out Bursting with imagination and impossible to put down New York Times bestselling author John Connolly's wholly original People and refreshing San Francisco Chronicle novel is about the pull between good and evil physics and fantasy It is about a quirky and eccentric boy who is impossible not to love and the unlikely cast of characters who give him the strength to stand up to a demonic power *Ferocious Minds* Damien Broderick, 2005-01-01 Two centuries ago the first Enlightenment failed when its dream of reason smashed into the passions and fury of stubborn humans Without a deep broad understanding of the world the emerging Enlightenment was left floundering its best impulses perverted into the bloody excess of the French Revolution Arguably its idealism and noble goals led directly and shockingly to the 20th century's totalitarian nightmares Now the 21st century is learning anew the Faustian hunger to know everything that can be known But Enlightenment values of reason and tolerance enriched by new knowledge face a complex world no less eager to embrace medieval terrorism and ancient superstitions a world bizarrely denying itself many of the fresh opportunities and insights availed by science Can we find cures for poverty unhappiness ignorance the ruination of the planet aging and perhaps for death itself If so should we Damien Broderick's own ferocious mind invites you to explore today's unexpected treasure house of understanding and provides enticing glimpses of tomorrow's InfoWorld, 1985-11-18 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects Alphatopbetics: Volume One Jerry Dampier, Alphatopbetics Ideas We Live With and Live by Every Day of Our Life is a book inspired by the study of psychology theology history science and especially philosophy Influenced by the Greek philosophers Socrates Plato and Aristotle Jerry Dampier has combined life experience and informal discussions to arrive at the basis of Alphatopbetics The ideas written about in this book are not just research based although I have done extensive research over four or five years the ideas I have written about are ideas in which I have had many conversations the discussions or conversations were held with family and relatives friends and acquaintances academicians or college professors and classmates They along with the research I have put into this book have helped me to write it *A Metaphysics for the Future* Robert Allinson, 2024-11-01 This title was first published in 2001 This work is intended to serve not only as an expression of a new idea of a philosophy but as an apologia for philosophy as a legitimate and independent discipline in its own right It argues that in the 20th century truth has not been abandoned but merely modified The text proposes a return to truth and suggests that it is only after apprehending the truths of

consciousness that the philosopher's mirror may become a kaleidoscope through which reality may be contemplated First order truth lies in the realm of discovery and discovery takes place only within the moment of subjective re enactment

The Square Root of God Timothy Carson,2014-12-05 This provocative exploration of faith and numbers provides a whole new way to understand the mystery of God and the universe a must read for both spiritual individuals in search of relevancy and curious skeptics willing to entertain a new way to approach the most basic questions of life **God's**

Creation James Tucker,2009-06-18 Veritas vos liberabit The truth shall set you free Karl Marx termed religion the opiate of the masses A kind of drug which most Christians utilize to ease their conscience and induce a feel good state of mind Gods Creation is an attempt to prompt Christians to get off the drug Not to withdraw from religion but just the opposite To withdraw from the complacent palliative and conscience easing state of mind of a part time Christian To replace this false feel good religion with a consciously arrived at faith and belief based upon facts utilizing a logical rational reasoning mind This book is disturbing and enlightening It is mind bending and life altering It is disconcerting as most will learn what their parents priests ministers or rabbis taught them was not necessarily the truth Gods Creation attempts to motivate the indifferent Christians to utilize their God given mind to seriously think about what they actually believe and to conduct their lives according to that belief Jesus warned Many are called but few are chosen Are you among the chosen few **Angels**

George J. Marshall,2015-08-13 In the 1990s alone more than 400 works on angels were published adding to an already burgeoning genre Throughout the centuries angels have been featured in among others theological works on scripture studies in comparative religions works on art architecture and music philological studies philosophical sociological anthropological archeological and psychological works and even a psychoanalytical study of the implications that our understanding of angels has for our understanding of sexual differences This bibliography lists 4 355 works alphabetically by author Each entry contains a source for the reference often a Library of Congress call number followed by the name of a university that holds the work More than 750 of the entries are annotated Extensive indexes to names subjects and centuries provide further utility James Tucker,2005-07-01 Very few of the titles whether fiction or non take a serious analytical look at the Bible as a biblical scholar or theologian would This is where God's Inferno differs from the majority It utilizes logical rational reasoning to analyze what that Bible actually says not what most have been lead to believe It seriously attacks the present Christian faith as their tenants and doctrines are based on a very faulty interpretation of what the Bible actually says It maintains and proves the god of the Old Testament is not the Supreme God but merely what the Jewish people of Israel pictured their god to be Naturally if he is not the Supreme God then Jesus is not the Son of that Supreme God but may have been the son of that hateful murderous vengeful god of the Old Testament From the founding of Christianity it traces its impact through the first 1500 1600 years of the Catholic Church the keepers of the faith during that time It documents the Crusades the Inquisitions and the Reformation as well as the many married priests Popes who fathered children and under

aged leading fathers of the Church Finally it attempts to motivate the indifferent Christian to utilize his God given mind to seriously think about what they actually believe and to conduct their lives according to that belief *To Care Enough* Bob Fine,2014-05-07 For more than fifty years Bob Fine taught in family studies education religious studies human services and the Holocaust He also worked professionally in human services bringing his academic interests to bear on real life problems of people in distress In this new collection of essays he explores his own life journey from a difficult childhood to his cherished role as father and grandfather and argues with passion and wit on such wide ranging topics as parenting public education bigotry violence and the life affirming properties of American jazz
