Angst For The Memories English Edition:

German Memory Contests Anne Fuchs, Mary Cosgrove, Georg Grote, 2006 Since unification in 1990 Germany has seen a boom in the confrontation with memory evident in a sharp increase in novels films autobiographies and other forms of public discourse that engage with the long term effects of National Socialism across generations Taking issue with the concept of Vergangenheitsbewältigung or coming to terms with the Nazi past which after 1945 guided nearly all debate on the topic the contributors to this volume view contemporary German culture through the more dynamic concept of memory contests which sees all forms of memory public or private as ongoing processes of negotiating identity in the present Touching on gender generations memory and postmemory trauma theory ethnicity historiography and family narrative the contributions offer a comprehensive picture of current German memory debates in so doing shedding light on the struggle to construct a German identity mindful of but not wholly defined by the horrors of National Socialism and the Holocaust Contributors Peter Fritzsche Anne Fuchs Elizabeth Boa Stefan Willer Chloe E M Paver Matthias Fiedler J J Long Dagmar C G Lorenz Cathy S Gelbin Jennifer E Michaels Mary Cosgrove Andrew Plowman Roger Woods Anne Fuchs is Professor of modern German literature and Georg Grote is Lecturer in German history both at University College Dublin Mary Cosgrove is Lecturer in German at the University of Edinburgh

Phenomenology of Anxiety Stefano Micali, 2022-03-30 This volume offers a thorough description of anxiety from a phenomenological perspective Building on Bakhtin's insights the author develops the method of phenomenological polyphony which can do justice to the essential ambiguity of anxiety In this polyphony the voices of Kierkegaard Husserl Freud Blumenberg Heidegger Sartre Adorno Derrida and Levinas are particularly recognizable The book explores new perspectives on the complex relation between anxiety fear and trauma with reference to different disciplines from art history to cultural anthropology from psychopathology to theology from literature to political philosophy When is anxiety justified When does anxiety cease to function as an effective and reasonable signal preventing imminent threats and when does it become an invasive projection of our own ghosts This volume presents a deep philosophical inquiry into the affective phenomenon that can both protect us from danger and be a danger in itself Moreover the author explores the relevance of anxiety in the context of philosophical anthropology In various theoretical frameworks the difference between anxiety and fear serves as a criterion for distinguishing human beings from animals in particular Accordingly research on anxiety is crucial for defining human nature as such The analysis presented in this volume shows how an alteration of the dimensions of embodiment time consciousness and phantasy takes place in anxiety Furthermore the author elaborates on new categories for understanding of anxiety such as quasi intentional imaginative anticipation which eludes the traditional differentiation between perception and imagination The work culminates in a phenomenological analysis of five essential traits of anxiety 1 its quasi intentional imaginative anticipation 2 its negative inspiration 3 the recurrence of bodily manifestations 4 the interlocution with an alien power 5 its negative teleology
