Gail Edwards, Judith Saltman

Animals In Sweaters An Illustrated Alphabet:

Animals in Sweaters M. Wei, 2014-10-26 Who's ready for sweater weather? Put on a cardigan and meet these cozy critters! From the blobfish in a Bill Cosby sweater to the wombat in a 1990's windbreaker, this illustrated alphabet book features quirky animals in warm sweaters and jackets, possibly thrifted from your local flea market. This is not your typical alphabet book.

Alphabet Patricia Roberts, 1994 Planned activities are suggested for over 200 alphabet books and include objective materials and suggested grade level. Recommended for school librarians, teachers, and parents. [Alphabet Books as a Key to Language Patterns](#) Patricia Roberts, 1987 *Children's Literature Awards and Winners*, 1994 [Picturing Canada](#) Gail Edwards, Judith Saltman, 2014-07-31 The study of children's illustrated books is located within the broad histories of print culture, publishing, the book trade, and concepts of childhood. An interdisciplinary history, *Picturing Canada* provides a critical understanding of the changing geographical, historical, and cultural aspects of Canadian identity as seen through the lens of children's publishing over two centuries. Gail Edwards and Judith Saltman illuminate the connection between children's publishing and Canadian nationalism, analyse the gendered history of children's librarianship, identify changes and continuities in narrative themes and artistic styles, and explore recent changes in the creation and consumption of children's illustrated books. Over 130 interviews with Canadian authors, illustrators, editors, librarians, booksellers, critics, and other contributors to Canadian children's book publishing document the experiences of those who worked in the industry. An important and wholly original work, *Picturing Canada* is fundamental to our understanding of publishing history and the history of childhood itself in Canada.

A Mountain Alphabet Margriet Ruurs, 2011-11-30 Mountains are an impressive sight anywhere in the world, but those of the western mountain region of North America offer riches that are truly unique. This lavishly illustrated picture book presents snowcapped peaks, emerald lakes, tall pines, and magnificent maples, and a range of birds and animals that will fill readers of all ages with wonder. The treasures and mysteries of nature are depicted in twenty-six full-color paintings, each with a line of alliterative text. Objects that begin with that letter of the alphabet are waiting to be discovered in each illustration. Complete with detailed information about each setting painted, this is a visually and mentally stimulating experience from A to Z.

The Publishers Weekly, 2009 *Playing with the Book* Hannah Field, 2019-07-02 A beautifully illustrated exploration of how Victorian novelty picture books reshape the ways children read and interact with texts. The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to pull, pages that could fold out, pop-up scenes, and even mechanical toys mounted on pages. Analyzing books for young children published between 1835 and 1914, *Playing with the Book* studies how these elaborately designed works raise questions not just about what books should look like but also about what reading is, particularly in relation to children's literature and child readers. Novelty books promised or threatened to make reading a physical as well as intellectual activity, requiring the child to pull a tab or lift a flap to continue the story. These books changed the relationship between pictures, words, and format in both productive and

troubling ways Hannah Field considers these aspects of children's reading through case studies of different formats of novelty and movable books and intensive examination of editions that have survived from the nineteenth century. She discovers that children ripped, tore, and colored in their novelty books despite these books' explicit instructions against such behaviors. Richly illustrated with images of these ingenious constructions, *Playing with the Book* argues that novelty books construct a process of reading that involves touch as well as sight, thus reconfiguring our understanding of the phenomenology of reading.
