Annihilating Difference Alexander Laban Hinton, 2002-08-15 This text presents a collection of original essays on genocide It explores a wide range of cases including Nazi Germany Cambodia Guatemala Rwanda and Bosnia **Handbook of Transnational Crime and Justice** Philip Reichel, Jay Albanese, 2013-04-29 Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century In the Handbook of Transnational Crime and Justice Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws crimes and criminal justice responses to transnational crime This concise reader friendly handbook is organized logically around four major themes the problem of transnational crime analysis of specific transnational crimes approaches to its control and regional geographical analyses Each comprehensive chapter is designed to be explored as a stand alone topic making this handbook an important textbook and reference tool for students and practitioners alike **A Companion to Medical Anthropology** Merrill Singer, Pamela I. Erickson, 2015-04-20 A Companion to Medical Anthropology examines the current issues controversies and state of the field in medical anthropology today Provides an expert view of the major topics and themes to concern the discipline since its founding in the 1960s Written by leading international scholars in medical anthropology Covers environmental health global health biotechnology syndemics nutrition substance abuse infectious disease and sexuality and reproductive health and other topics **Anthropology Matters** Shirley A. Fedorak, 2017-01-01 Anthropology Matters places the study of anthropology concretely in the world that surrounds it It takes a question based approach to introducing important anthropological concepts by embedding those concepts in contemporary global issues that will interest students The third edition of this popular text has been updated throughout and includes two new chapters globalization and transnational mobility and the responsibility of the global community to refugees The book has also been revised and updated throughout to reflect current events and popular topics including the impact of social media on social political and religious systems interviews with women who veil and discussion of design anthropology **A Companion to Psychological Anthropology** Conerly Casey, Robert B. Edgerton, 2008-04-15 This Companion provides the first definitive overview of psychocultural anthropology a subject that focuses on cultural psychological and social interrelations across cultures Brings together original essays by leading scholars in the field Offers an in depth exploration of the concepts and topics that have emerged through contemporary ethnographic work and the processes of global change Key issues range from studies of consciousness and time emotion cognition dreaming and memory to the lingering effects of racism and ethnocentrism violence identity and subjectivity *Genocide and its Threat to Contemporary International Order* A. Gallagher, 2013-01-21 For far too long the discipline of International Relations has failed to engage with the study of genocide This is despite the fact that genocide holds a direct relationship with the central concepts of international relations the state war power and security This bold innovative and unique book sets out to tackle this by bringing the concept of genocide into

the discipline of IR via the English School in order to theorise the relationship between genocide justice and order Drawing on a wide range of primary and secondary interdisciplinary material from International Relations Genocide Studies Security Studies International Law History Politics and Political Theory this book aims to understand genocide within the context of International Relations and the implications that this has on policymaking Gallagher identifies the obstacles and challenges involved in bringing the study of genocide into IR and uniquely analyses the impact of genocide on the ordering structure of international society

Never Meant to Survive João H. Costa Vargas, 2023-06-14 Never Meant to Survive presents a historical political and social assessment of anti black genocide and liberatory struggles that arose to resist it Based on fine grained accounts of community life at the street level Costa Vargas s work presents crucial examples of political resistance and community activism By examining two cities linked by common experiences of Blackness Los Angeles and Rio de Janeiro this book identifies a prevailing genocidal force that organizes individuals and groups across society The 1965 and 1992 riots in Los Angeles the work of the Black Panther Party and favela activists in Brazil and police brutality in struggles between black communities and the state in both L A and Rio de Janeiro all figure importantly in Costa Vargas s compelling account What emerges from this analysis is a call for the destruction of the conditions that foster the marginalization of black communities and a halt to the internal conflicts between black social groups themselves

HIV/AIDS and the Social Consequences of Untamed Biomedicine Graham Fordham, 2014-11-13 Drawing on the case of HIV AIDS in Thailand this book examines how anthropological and other interpretative social science research has been utilized in modeling the AIDS epidemic and in the design and implementation of interventions It argues that much social science research has been complicit with the forces that generated the epidemic and with the social control agendas of the state and that as such it has increased the weight of structural violence bearing upon the afflicted The book also questions claims of Thai AIDS control success arguing that these can only be made at the cost of excluding categories such as intravenous drug users the incarcerated and homosexuals who continue to experience extraordinarily high levels of levels of HIV infection Considered deviant and undeserving these persons have deliberately been excluded from harm reduction programs Overall this work argues for the untapped potential of anthropological research in the health field a confident anthropology rooted in ethnography and a critical reflexivity Crucially it argues that in context of interdisciplinary collaborations anthropological research must refuse relegation to the status of an adjunct discipline and must be free epistemologically and methodologically from the universalizing assumptions and practices of biomedicine

Anthropology and the Politics of Representation Gabriela Vargas-Cetina, 2013-02 This book examines the inherently problematic nature of representation and description of living people specifically in ethnography and more generally in anthropological work as a whole In this book the editor brings together a group of international scholars who through their fieldwork experiences reflect on the epistemological political and personal implications of their own work To do so they focus on such topics as ethnography

anthropologists engagement in identity politics representational practices the contexts of anthropological research and work and the effects of personal choices regarding self involvement in local causes that may extend beyond purely ethnographic goals Massacres and Morality Alex J. Bellamy, 2012-09-27 Most cultural and legal codes agree that the intentional killing of civilians whether in peacetime or war is prohibited Yet despite this fact the deliberate killing of large numbers of civilians remains a persistent feature of global political life
