How to Become an AHA Instructor

Put your heart into training.

Learn from the leader.

Teach to save lives.

Are you interested in becoming an American Heart Association Instructor?

Consult an American Heart Association Training Center (TC) to find out whether the TC is accepting new instructors and what the TC's preferred course delivery method is. Then, becoming an instructor is as easy as 1-2-3:

1. Complete the Core Instructor Course.
2. Complete a discipline-specific instructor course in BLS, HeartStart, ACLS, or PALS.
3. Get monitored by an American Heart Association TC or instructor.

Renewal Schedule

I, _____ (student name) took my
BLS HCP course on _____ (date) at the
_____ Training Center/site and am
due for a renewal course in _____ (month/year)

Association,2020-11-04 20 1101 *Adult and Paediatric Basic Life Support* Ana Laura Vallejo,Jose Vigueras,2016-10-30
CARDIAC ARREST is a health problem of the first magnitude so that this document includes the main issues and changes
updating the guidelines of the American Heart Association AHA for cardiopulmonary resuscitation CPR and Emergency
Cardiovascular Emergency ACE 2015 It has been developed with the aim that those responsible for resuscitation and AHA
instructors have a guide quick reference that provides the basis for these recommendations Updates of the ACLS
Guidelines 2015. A Historical Comparison Patrick Kimuyu,2017-12-14 Literature Review from the year 2017 in the subject
Medicine Hospital Environment Clinical Medicine grade 1 Egerton University language English abstract Over the years the
American Heart Association has made outstanding contributions and numerous improvements to cardiopulmonary
resuscitation and advanced cardiac life support guidelines It is due to adequate use of resources and continuous research
that millions of lives are saved in the United States Such guidelines serve health care providers and other members of the
healthcare team as a resource to ensure adequate and timely response to those individuals who experience cardiac or
respiratory arrest However according to AHA statistics More than 326 000 people in the US suffer out of hospital cardiac
arrests each year Statistics prove that if more people knew CPR more lives could be saved American Heart Association 2016
In other words dissemination of knowledge on the matter has direct outcomes on increasing survival rates Therefore the
guidelines and the implementation methods are on continuous review based on new evidence It is important to provide those
who suffer cardiac or respiratory arrest with timely services because delays could end up affecting the outcome of those who
experience reversible damage Healthcare providers around the world have become informed on the benefits of updated
competence and direct patient outcomes and quality of care The American Heart Association has published the new 2015
cardiopulmonary resuscitation guidelines where changes and updates are reflected in an effort to put the best available
evidence in practice The purpose of this review is to compare the 2015 AHA updates with historical evidence in an attempt to
explicate the implications and limitations of pharmacology in advanced cardiac life support Highlights of the 2015
