Introduction

The manual describes correct adjustment and working procedure for Mitsubishi self-propelled telescopic boom platform SP20B in order to ensure the most effective use of output performance and working lifetime for your satisfaction.

A qualified personnel should read this manual carefully and understand the description correctly before working any repair or maintenance work.

Always be sure of the following items when conducting repair or maintenance work:

- Use only the spare parts approved by the manufacturer, particularly for load supporting and safety related components.
 - Proper sequence should be taken to ensure safety during maintenance.
 - Do not make any modification to the machine without obtaining the manufacturer's approval.
- The design, checks, the manufacturing check as well as the practical use shall be conducted by the approved agents. If the modification check reveals after the stability, strength or performance of the machine is made.

Please note that the numerical values in the manual may be subject to change due to engineering improvement.
