Up From Socialism Mark Satin, 2023-10-31 An essential introduction to the visionary beyond left and right political activism of the last 60 years and a deeply honest insider account of why those activists have so far fallen short I appreciate that Satin is willing to be so candid It helps us all learn And he writes in a way that touches the soul Christa Slaton First platform coordinator for the U S Green Party movement and co editor of the book *Transformational Politics Theory Study and Practice* In a gripping first person narrative that reads like a novel using his own experiences as a lens Mark Satin tells the story of three generations of thinkers and activists who tried and are still trying to create a post socialist post conservative visionary and healing new politics for the U S In this book Satin shows that the increasingly militant movements of the Sixties drove many young people away and into a search for a political system and world that could work for everyone He looks at initiatives and organizations that over the next 30 years tried to further that search such as the New World Alliance and the early U S Green Party movement Then he illuminates the 21st century turn to radical centrist and transpartisan political initiatives Each chapter begins with a brief context setting introduction Throughout the book are intense blow by blow accounts of organization and movement building as well as brief glimpses at over 40 often underappreciated visionary books And always there are deeply honest accounts of Satin s and other activists often shaky relationships with colleagues family and lovers because getting healing politics right cannot be divorced from getting personal and interpersonal behavior right You will enjoy watching Satin s encounters with civil rights militant Hardy Frye Weather Underground terrorist Mark Rudd environmental activist Paul Hawken beyond GNP economic thinker Hazel Henderson futurists John Naisbitt and Alvin Toffler Nobel Peace Prize nominee Gene Sharp Aquarian Conspiracy
