involving the appropriate and inappropriate use of key skills presentation and discussion of positive and negative consequences of each skill independent learning and connecting lessons learned to the central idea of the skills being taught These strategies are arranged in a logical order wherein the material mastered via one technique builds upon prior ones and provides a context for the next one in the instructional sequence In most cases it seems highly likely that students who are led through this sequence could not fail to acquire important information about understanding and applying these skills to their own lives This important new resource will enable professionals to be more effective in assisting students with disabilities in negotiating the many challenges in making the transition from school to the world of adult living
