Eric J. Kyle, 2019-05-16 This book is an attempt to address two struggles for theistic educators e g those who approach their educational vocation from a religious perspective whether they are working in secular or faith based institutions The first struggle is that while numerous guidelines on teaching excellence have been compiled the resulting checklists can contain more than a hundred criteria to consider This book therefore identifies the evidence based guidelines that are likely to have the highest impact on student achievement thereby empowering educators to focus their efforts in more substantial ways The second struggle is related to the lack of resources which can help educators to view and approach their vocation from a

theistic perspective While there are texts that discuss the relationship of spirituality and or theology to education few to date have sought to bring evidence based educational literature into dialogue with the western Christian tradition and thereby develop a bottom up theology of education This book addresses this historical and theological gap Overall this book is therefore intended to not only provide theistic educators with high impact guidelines that can significantly improve the quality of education in their school systems but it also strives to do so from a thoroughly theistic perspective *Counseling the Nursing Mother: A Lactation Consultant's Guide* Judith Lauwers, Anna Swisher, 2020-07-01 Counseling the Nursing Mother A Lactation Consultant s Guide Seventh Edition presents topics within a counseling framework with practical suggestions and evidence based information interwoven throughout Additionally the Seventh Edition is an ideal study guide for International Board Certified Lactation Consultant IBCLC certification and practice *Sheehy's Emergency Nursing* Emergency Nurses Association, 2019-08-15 Selected for Doody s Core Titles 2024 in Emergency Care Written by emergency nurses for emergency nurses Sheehy s Emergency Nursing Principles and Practice 7th Edition covers the issues and procedures unique to the emergency department This comprehensive evidence based resource is written by the Emergency Nurses Association and includes developments and changes in clinical practice that are incorporated throughout the text Considered the go to guide for issues and procedures unique to the emergency department the user friendly format features more than 150 high quality illustrations and tables that highlight essential concepts and offer quick access to vital information New to this edition is updated key coverage including clinical fundamentals treatment for trauma and medical surgical emergencies the foundations of emergency nursing practice special populations and more Written by the Emergency Nurses Association ensuring this is the most accurate information on the market Most comprehensive and authoritative text available on emergency nursing Logically organized chapters are grouped into six sections for quick access to important content Foundations of Emergency Nursing Professional Practice Clinical Foundations of Emergency Nursing Major Trauma Emergencies Medical and Surgical Emergencies and Special Patient Populations Tables and boxes highlight and summarize critical and essential information while 150 illustrations help you to quickly identify and treat frequently encountered conditions A separate unit on special patient populations covers topics such as child abuse elder abuse intimate partner violence sexual assault substance abuse and behavioral pediatric obstetrical emergencies NEW Coverage includes the latest on topical issues such as ethics workplace violence and geriatric trauma UPDATED pain guidelines feature the latest pain indicators UPDATED sepsis guidelines provide essential information on pathophysiology and diagnosis with valuable guidelines for managing these patients NEW Fully revised information on communicable diseases UPDATED Information on non narcotic use for treatment of pain and increasing rates of addiction NEW Discussion of transgender patients covers how to work with this unique population NEW Full color photo insert **Critical Care Nursing** Leanne Aitken, Andrea Marshall, Wendy Chaboyer, 2019-06-22 Endorsed by the Australian College of Critical Care Nurses ACCCN ACCCN is the
