Safety belts

All vehicle occupants, including those in the rear, must buckle up – even if it's just a short trip. For the best possible protection by the seat belts and airbags, the seat position must be close to the steering wheel or the instrument panel. Keep the seats in an upright position and make sure that the belts are fixed properly to the height of you and your passengers. Keep your feet on the floor at all times.

Safety belt position/Head restraint position

The shoulder belt must rest over the middle of the shoulder. The top portion of the safety belt must fit snugly across the pelvis. Both portions of the safety belt must fit tightly. The upper edge of the head restraint should be at eye level or higher.

Seat position and distance to steering wheel

Always adjust the driver's seat to the steering wheel so that there is a minimum of 10 inches (25 cm) between your kneecaps and the steering wheel. Otherwise, the airbag system cannot protect you properly in the event of an accident and can increase your risk of serious personal injury and death.

Safety belt height adjustment

Make the adjustment up/down to adjust the height. After you've adjusted the safety belt height, pull on the belt one more time to make sure the adjuster is locked into place.

Note: Always check the seat belt height adjustment markings and other important vehicle air bag safety labels and instructions for the risk of injury to children. Failure to properly use certain vehicle air bags or other personal items can be fatal.

Note: Always make sure the vehicle safety air bags are properly installed. Children 12 years old and younger must sit in the rear seat and be properly secured in a booster or the vehicle's seat. The seating is supplemented and must be subject to your local law.

Note: Always read and follow the instructions for the front passenger air bag and the vehicle's manual. Always use proper seating position.

Power roof

With the ignition on, turn the switch on.

- 1 - Close
- 2 - Open to the constant position
- 3 - Open all the way
- 4 - Full open

Note: Always check the weather when using the roof. Check to see that no one is in the way. An object trapped between roof and head can be fatal.
