Algeria and France, 1800-2000 Patricia M. E. Lorcin, 2006-10-19 The relationship between Algeria and France that formed during the 132 years of colonial rule did not end in 1962 when Algeria gained its independence This long period of occupation left an indelible mark on the social fabric of both societies one that continues to influence their cultures identities and politics Wide ranging in scope yet complementary in focus the essays deftly convey the extent to which the French colonial experience in Algeria resonates on both sides of the Mediterranean Young and established scholars shed light on the linguistic cultural and social mechanisms of violence remembrance forgetting fantasy nostalgia prejudice mythmaking and fractured identity Addressing the nature of Franco Algerian relations through such topics as migration displacement settler colonialism racism and sexuality these essays provide an important contribution to postcolonial studies cultural studies and North African history With renewed public debate surrounding the two countries shared past and their interwoven communities today this volume will be indispensable for anyone with an interest in the relations between Algeria and France and the literature on memory and nostalgia

The Algerian War in French/Algerian Writing Jonathan Lewis, 2018-10-05 This book will enlighten readers on the importance of literature in contributing to historical knowledge Will provide readers with comprehensive understanding of the development of writing by French authors of Algerian origin from its emergence in the 1980s to the present day Emphasizes the contemporary relevance of the Algerian War and the afterlives of empire on twenty first century society and culture

Nostalgic Rebels: Politics, Aesthetics, and Selfhood in Postcolonial Morocco Khalid Lyamlahy, 2025-05-23 Mohammed Kha r Eddine 1941 1995 Abdelk bir Khatibi 1938 2009 and Abdellatif La bi 1942 are three of the most important francophone Moroccan writers to have emerged in the 1960s Belonging to the Souffles generation named after the journal of culture and politics founded in 1966 they played a major role in cultural decolonization and the development of Moroccan literature This book examines their works and legacy through the dual lenses of revolt and nostalgia By weaving together comparative close readings of their writings with an analysis of the broader historical and political context in Morocco the book demonstrates that these writers have used revolt and nostalgia to address state sponsored violence grapple with uncertainties about the writing process and advance or revitalize their political and aesthetic projects In doing so this study traces a literary genealogy of political resistance aesthetic subversion and nostalgic reconstruction in postcolonial Morocco while offering a nuanced historical perspective that is closely attuned to the specificities of Moroccan postcoloniality and sensitive to individual trajectories and experiences The book covers a wide range of literary genres including poetry theater prose fiction and autobiography all analyzed through a distinctively Moroccan historical and cultural lens providing new insights into Moroccan literature and the theories of revolt and nostalgia

France Since 1945 Robert Gildea, 2025-06-06 Robert Gildea presents an ambitious and wide ranging but succinct history of France from 1945 to 2024 which seeks to provide a sympathetic understanding of the forces that have shaped a

country that is so close to Britain and yet so different This third edition following the second in 2002 and first in 1996 takes into account twenty more years of French history history writing and changing historical approaches notably in colonial history and gender history France Since 1945 explores France's bid to restore political stability and international greatness after the Second World War which was marked by defeat and occupation and the loss of greatness and crisis of democracy that began in the 1990s These chapters are interleaved by eight thematic chapters on the legacy of the Second World War and the Algerian War which arguably continues in France to this day on the economy and society on French culture and on gender and sexuality

Forgetful Remembrance Guy Beiner, 2018 *Forgetful Remembrance* offers a new approach to the study of memory by focusing on vernacular historiographies and the notion of forgetting Using the 1798 Irish Rebellion Beiner explores how communities try to obscure inconvenient and uncomfortable events from the past

The Algerian War in French-Language Comics Jennifer Howell, 2015-10-08 The decolonization of Algeria represents a turning point in world history marking the end of France's colonial empire the birth of the Algerian republic and the appearance of the Third World and pan Arabism Algeria emerged from colonial domination to negotiate the release of American hostages in Iran during the Carter administration Radical Islam would later rise from the ashes of Algeria's failed democracy leading to a civil war and the training of Algerian terrorists in Afghanistan Moreover the decolonization of Algeria offered an imperfect model of decolonization to other nations like South Africa that succeeded in abolishing apartheid while retaining its white settler population Algeria and its war of national liberation therefore constitute an inescapable reference for those looking to understand today's war on terror and ever expanding islamophobia in Western media circuits Consequently it is imperative that students and educators understand the global implications of the Algerian War and how to best approach this conflict in school and at home so as to learn from the consequences of misrepresentation at all levels of the memory transmission chain These objectives are all the more important today given the West's misunderstanding and mischaracterization of Islam the Arab Spring the Muslim majority world and most importantly the continuing influence of French colonialism especially in the postcolonial era Conceived as a case study *The Algerian War in French Language Comics Postcolonial Memory History and Subjectivity* argues that comics provide an alternative to textbook representations of the Algerian War in France because they draw from many of the same source materials yet produce narratives that are significantly different This book demonstrates that although comics rely on conventional vectors of memory transmission like national education the family and mainstream media they can also create new and productive dialogues using these same vectors in ways unavailable to traditional textbooks From this perspective these comics are an effective and alternative way to develop a more inclusive social consciousness

Historicizing Colonial Nostalgia P. Lorcin, 2011-12-15 Comparative study of the writings and strategies of European women in two colonies French Algeria and British Kenya during the twentieth century Its central theme is women's discursive contribution to the construction of colonial nostalgia
