**Evaluating the Knowledge of at Risk High School Students in Ecology Through Alternative Assessment** Tina Marie Kopinski, 2007      **The Science Teacher**, 2009      Bridging Mental Boundaries in a Postcolonial Microcosm William F. S. Miles, 1998-09-01 The South Pacific archipelago of Vanuatu simultaneously experienced the two major types of colonialism of the modern era British and French the only instance in which these colonial powers jointly ruled the same people in the same territory over an extended period of time This in addition to its small size and recent independence 1980 makes Vanuatu an ideal case study of the clash of contemporary colonialism and its enduring legacies At the same time the uniqueness of Melanesian society highlights the singular role of indigenous culture in shaping both colonial and postcolonial political reality With its close attention to global processes Bridging Mental Boundaries in a Postcolonial Microcosm provides a fresh comparative approach to an island state that has most frequently been examined from an ethnographic or area studies perspective William F S Miles looks at the long term effects of the joint Franco British administration in public policy political disputes and social cleavages in post independence Vanuatu He emphasizes the strong imprint left by condocolonialism in dividing ni Vanuatu into Anglophones and Francophones but also suggest how this basic division is being replaced or overlaid by divisions based on urban or rural residence traditional or modern employment and disparities between the status and activities of men and women As such this volume is more than an analysis of a unique case of colonialism and its effects it is an interpretation of the evolution of an insular society beset by particularly convoluted precolonial colonial and postcolonial fractures Based principally on research conducted in 1991 and following a key change in Vanuatu s government a subsequent visit in 1992 the analysis is enriched by regular comparisons between Vanuatu and other colonized societies where the author has carried out original research including Niger Nigeria Martinique and Pondicherry Extensive interviews with ni Vanuatu are integrated throughout the text presenting islanders views of their own experience      Multi-Dimensional You Elaine Seiler, 2012 AN ENERGETIC JOURNEY YOURS AND THE PLANETS Humankind is evolving the world we know is changing This book is like a very special pair of eyeglasses enabling you to see and manage this new world differently with expanded vision and skills beyond your five senses in a way you have never done before Elaine Seiler Multi Dimensional YOU will catalyze your evolution and help you recognize and more easily navigate the stages through which you will evolve You will gain CLARITY about what is occurring on the planet today in 2012 and beyond UNDERSTANDING of the changes taking place in and around you SKILLS to navigate this less physical and more vibratory world TOOLS that function in an invisible realm HOPE as you face an undetermined future TRUST in your own knowingness CONFIDENCE in your choice making abilities and INNER PEACE as you face the inevitable shifts ahead Let Seiler be your GUIDE Say good by to overwhelm confusion and anxiety as your face the future Embrace the fullness of The Multi Dimensional YOU Accurate in depth knowledge and passion You owe it to yourself to read this book Easy to read and put into

**Art-Based Games** Don Pavey, 2024-02-09 The visitor to an Art Arena game is confronted with an enormous piece of paper covering one wall of the room Groups of players are at work painting some with spontaneity or abandon others with thoughtful precision Back from the wall are knots of players calling our apparently

cryptic information to those at work on the paper or transmitting it in coded sounds using whistles pipes and various home made instruments Colours are phased across the wall sometimes colliding sometimes mingling or encircling each other But what is the connection between the sound flow and the painting This book originally published in 1979 describes the beginnings of a new approach to art education an approach based on the use of games in art The games draw not only upon artistic and design skills but also upon those that teachers in all subjects try to develop in their pupils logical thinking breadth of judgement imagination and sensibility in handling materials and media They also provide a vehicle for familiarizing players with a wealth of concepts and data from different topics The approach aims at promoting group work and cooperative interaction and has proved to be of interest to social workers and to teachers of disabled and difficult children It has been tried out with an unusual variety of groups from mixed and low ability to groups of gifted children students and adults and while the level of playing has varied the games have elicited high involvement from participants While referring to game theory and research the book is essentially practical giving instructions for inventing and playing games and descriptions of a number of games played by different groups The end of the book gives a detailed list of concepts and suggestions for further reading and lists of materials and suppliers

**The Other Digital China** Jing Wang, 2019-12-10 A scholar and activist tells the story of change makers operating within the Chinese Communist system whose ideas of social action necessarily differ from those dominant in Western liberal societies The Chinese government has increased digital censorship under Xi Jinping Why Because online activism works it is perceived as a threat in halls of power In The Other Digital China Jing Wang a scholar at MIT and an activist in China shatters the view that citizens of nonliberal societies are either brainwashed or complicit either imprisoned for speaking out or paralyzed by fear Instead Wang shows the impact of a less confrontational kind of activism Whereas Westerners tend to equate action with open criticism and street revolutions Chinese activists are building an invisible and quiet coalition to bring incremental progress to their society Many Chinese change makers practice nonconfrontational activism They prefer to walk around obstacles rather than break through them tactfully navigating between what is lawful and what is illegitimate The Other Digital China describes this massive gray zone where NGOs digital entrepreneurs university students IT companies like Tencent and Sina and tech communities operate They study the policy winds in Beijing devising ways to press their case

without antagonizing a regime where taboo terms fluctuate at different moments What emerges is an ever expanding networked activism on a grand scale Under extreme ideological constraints the majority of Chinese activists opt for neither revolution nor inertia They share a mentality common in China rules are meant to be bent if not resisted **Return of the Monstrous-Feminine** Barbara Creed, 2022-07-27 This follow up to the classic text of *The Monstrous Feminine* analyses those contemporary films which explore social justice issues such as women's equality violence against women queer relationships race and the plight of the planet and its multi species Examining a new movement termed by Creed as Feminist New Wave Cinema *The Return of the Monstrous Feminine* explores a significant change that has occurred over the past two decades in the representation of the monstrous feminine in visual discourse *The Monstrous Feminine* is a figure in revolt on a journey through the dark night of abjection Taking particular interest in women directors who create the figure of the Monstrous Feminine in cinema that foregrounds everyday horrors in addition to classic horror Creed looks at a range of diverse films including *The Babadook* *A Girl Walks Home Alone at Night* *Nomadland* *Carol* *Raw* *Revenge* and the television series *The Handmaid's Tale* These films center on different forms of revolt from inner revolt to social supernatural and violent revolt which appear in Feminist New Wave Cinema These relate in the main to the emergence of a range of social protest movements that have gathered momentum in the new millennium and given voice to new theoretical and critical discourses These include third and fourth wave feminism the MeToo movement queer theory race theory the critique of anthropocentrism and human animal theory These theoretical discourses have played a key role in influencing Feminist New Wave Cinema whose films are distinctive stylish and diverse This is an essential companion to the original classic text and is ideal for students in Gender and Media Gender and Horror Gender and Film and Feminist Film theory courses
