Shamas, Lawrence K. Wang, 2010-10-19 This text series of Water and Wastewater Engineering have been written in a time of mounting urbanisation and industrialisation and resulting stress on water and wastewater systems Clean and ample sources of water for municipal uses are becoming harder to find and more expensive to develop The text is comprehensive and covers all aspects of water supply water sources water distribution sanitary sewerage and urban stormwater drainage This wide coverage is helpful to engineers in their every day practice **Extending Medicare Coverage for Preventive and Other Services** Institute of Medicine, Division of Health Care Services, Committee on Medicare Coverage Extensions, 2000-05-07 This report which was developed by an expert committee of the Institute of Medicine reviews the first three services listed above It is intended to assist policymakers by providing syntheses of the best

evidence available about the effectiveness of these services and by estimating the cost to Medicare of covering them For each service or condition examined the committee commissioned a review of the scientific literature that was presented and discussed at a public workshop As requested by Congress this report includes explicit estimates only of costs to Medicare not costs to beneficiaries their families or others It also does not include cost effectiveness analyses That is the extent of the benefits relative to the costs to Medicare or to society generally is not evaluated for the services examined The method for estimating Medicare costs follows the generic estimation practices of the Congressional Budget Office CBO The objective was to provide Congress with estimates that were based on familiar procedures and could be compared readily with earlier and later CBO estimates For each condition or service the estimates are intended to suggest the order of magnitude of the costs to Medicare of extending coverage but the estimates could be considerably higher or lower than what Medicare might actually spend were coverage policies changed The estimates cover the five year period 2000 2004 In addition to the conclusions about specific coverage issues the report examines some broader concerns about the processes for making coverage decisions and about the research and organizational infrastructure for these decisions It also briefly examines the limits of coverage as a means of improving health services and outcomes and the limits of evidence as a means of resolving policy and ethical questions
