All Work And No Plays Blueprints For Performance:

Experiencing Liveness in Contemporary Performance Matthew Reason, Anja Mølle Lindelof, 2016-10-26 This volume brings together dynamic perspectives on the concept of liveness in the performing arts engaging with the live through the particular analytical focus of audiences and experience The status and significance of the live in performance has become contested perceived as variously as a marker of ontological difference a promotional slogan or a mystical evocation of cultural value Moving beyond debates about the relationship between the live and the mediated this collection considers what we can know and say about liveness in terms of processes of experiencing and processes of making Drawing together contributions from theatre music dance and performance art it takes an interdisciplinary approach in asking not what liveness is but how it matters and to whom The book invites readers to consider how liveness is produced through processes of audiencing as spectators bring qualities of a liveness into being through the nature of their attention and how it becomes materialized in acts of performance acts of making acts of archiving and acts of remembering Theoretical chapters and practice based reflections explore liveness eventness and nowness as key concepts in a range of topics such as affect documentation embodiment fandom and temporality showing how the relationship between audience and event is rarely singular and more often malleable and multiple With its focus on experiencing liveness this collection will be of interest to disciplines including performance audience and cultural studies visual arts cinema and sound technologies

From Heidegger to Performance Marie Hay, Martin Leach, 2024-12-17 In Being and Time Martin Heidegger developed a way of considering human existence as being there a process of interrelationships with aspects of the environment in which the very process itself constitutes the essence of human being From Heidegger to Performance engages with this radical perspective and consider Heidegger s thinking in relation to different senses of performance from the familiar such as theatrical contexts of dance live art and theatre to explorations of modes of being within these performative situations The contributors engage with a wide variety of topics from clowning to questions of linguistic construction from the phenomenology of objects in stage space to the ephemerality of performance from the performance of personal memory to the anxiety of the moment of choice in performing a complex movement This book explores the ways in which Heidegger s work and ideas of performance and performativity intersect across their various senses and usages and will be useful to scholars teachers and students who are interested in thinking about performance and themselves as performative in new ways

Metatheatrical Dramaturgies of Violence Emma Willis, 2021-11-08 This book

examines a series of contemporary plays where writers put theatre itself on stage. The texts examined variously dramatize how theatre falls short in response to the demands of violence, expose its implication in structures of violence including racism and gender based violence, and illustrate how it might effectively resist violence through reconfiguring representation. Case studies which include Jackie Sibblies Drury's *We Are Proud to Present* and *Fairview*, Ella Hickson's *The Writer* and Tim Crouch's *The Author* provide a range of practice based perspectives on the question of whether theatre is capable of accounting for and expressing the complexities of structural and interpersonal violence as both lived in the body and borne out in society. The book will appeal to scholars and artists working in the areas of violence theatre and ethics, witnessing memory and trauma, spectatorship and contemporary dramaturgy, as well as to those interested in both the doubts and dreams we have about the role of theatre in the twenty first century.

Nomadic Theatre Liesbeth Groot

Nibbelink, 2019-04-18. Fluid stages, morphing theatre spaces, ambulant spectators and occasionally disappearing performers: these are some of the key ingredients of nomadic theatre. They are also theatre's response to life in the 21st century, which is increasingly marked by the mobility of people, information technologies and services. While examining how contemporary theatre exposes and queries this mobile turn in society, Liesbeth Groot Nibbelink introduces the concept of nomadic theatre as a vital tool for analyzing how movement and mobility affect and implicate the theatre, how this makes way for local operations and lived spaces, and how physical movements are stepping stones for theorizing mobility at large. This book focuses on ambulatory performances and performative installations, asking how they stage movement and in turn mobilize the stage. By analyzing the work of leading European artists such as Rimini Protokoll, Dries Verhoeven, Ontroerend Goed and Signa, *Nomadic Theatre* demonstrates that mobile performances radically rethink the conditions of the stage and alter our understanding of spectatorship. *Nomadic Theatre* instigates connections across disciplinary fields and feeds dramaturgical analysis with insights derived from media theory, urban philosophy, cartography, architecture and game studies. It illustrates how theatre as a material form of thought creatively and critically engages with mobile existence both on the stage and in society.

Theatre and Social Media Patrick Lonergan, 2024-09-19

How does theatre, one of the most ancient and physical arts, relate to the modern, dynamic technology that is social media? How have changes in the use of social media affected the theatre? How does social media itself operate as a performance space? Used daily by many, social media has become one of the main mediums through which we present and perform our lives. In this concise study of the revealing relationship between theatre and social media, Patrick Lonergan considers social media as a performance space, analyses how theatre makers' engagement with social media on and off stage affects elements of theatrical composition and reception, and explores the practical and conceptual implications of audiences interacting with professional productions through social media. Exploring case studies from Shakespearean performance to Broadway musicals, this revised edition explores new approaches to social media and theatre, asking how new platforms can influence and even create theatre productions.

Interpreting Chekhov

Geoffrey Borny,2006-08-01 The author's contention is that Chekhov's plays have often been misinterpreted by scholars and directors particularly through their failure to adequately balance the comic and tragic elements inherent in these works Through a close examination of the form and content of Chekhov's dramas the author shows how deeply pessimistic or overly optimistic interpretations fail to sufficiently account for the rich complexity and ambiguity of these plays The author suggests that by accepting that Chekhov's plays are synthetic tragi comedies which juxtapose potentially tragic sub texts with essentially comic texts critics and directors are more likely to produce richer and more deeply satisfying interpretations of these works Besides being of general interest to any reader interested in understanding Chekhov's work the book is intended to be of particular interest to students of Drama and Theatre Studies and to potential directors of these subtle plays

collection of essays by one of the most eminent figures in philosophy of art The animating idea behind No l Carroll s work is that philosophers of art should eschew the sort of aestheticism that often implicitly but sometimes explicitly as in the case of

aesthetic theories of art and of their commitments to the notion of the autonomy of art governs their methodology Instead Carroll argues that philosophers of art need to refocus their attention on the ways in which art enters the life of culture and the lives of individual audience members The reference to three dimensions in the title refers to Carroll s view that philosophers of art should look at art from multiple angles and treat it as a substantial participant not only in society but also as a significant influence upon the moral and emotional experiences of audiences Toward a Just Pedagogy of Performance Charles O'Malley, 2023-12-11 This book is a compendium of resources largely by and for artists and scholars interested in engaging in conversations of justice diversity and historiography in the fields of theatre and performance studies For these students and for the future instructors in our field who will use this book we hold a tripartite hope to expand to enable and to provide access In its whole we intend for this book to provoke its readers to question the narratives of history that they ve received and that they may promulgate in their artistic and scholarly work We aim to question methods and ethics of reading present in the western mode of studying drama and performance history The contributions in the book not traditional chapters but manifestos experiences articles conversations and provocations raise questions and illuminate gaps and they do not speak in a unified voice or from a static position These pieces are written by artists graduate students teachers administrators and undergraduates these are expressions of hope and of experience and not of dogma This book is aimed toward instructors of undergraduates both graduate students and faculty at all levels of seniority within theatre and performance studies as well as at artists and practitioners of the art that wish to find more just ways of viewing history
