These questions cover various aspects of finance from financial statements and valuation to risk management and economic analysis providing a comprehensive test of your technical finance knowledge

Walk me through the three main financial statements Here s a detailed walk through of the three main financial statements

1 Income Statement Purpose The income statement shows a company s financial performance over a specific period such as a quarter or a year

Components Revenue Sales Total income generated from primary business activities Cost of Goods Sold COGS Direct costs attributable to the production of goods sold Gross Profit Calculated as Revenue minus COGS It reflects the basic profitability of core business operations Operating Expenses Includes costs such as salaries rent utilities and depreciation related to operating the business Operating Income Gross Profit minus Operating Expenses It shows profitability from core operations Non Operating Income Expenses Includes items not directly related to core operations such as interest income interest expense and gains or losses from investments Income Before Taxes Operating Income plus or minus Non Operating Items Income Tax Expense Taxes incurred based on the pre tax income Net Income The final profit or loss after all expenses including taxes have been deducted from total revenue

Significance It provides insight into a company s profitability by showing how much profit is made after all expenses are accounted for It s useful for assessing operational efficiency and financial performance over time

2 Balance Sheet Purpose The balance sheet provides a snapshot of a company s financial position at a specific point in time

Components Assets Resources owned by the company that are expected to provide future economic benefits Current Assets Cash accounts receivable inventory and other assets expected to be converted into cash or used up within one year Non Current Assets Property plant equipment intangible assets and other long term investments Liabilities Obligations the company owes to external parties Current Liabilities Accounts payable short term debt and other obligations expected to be settled within one year Non Current Liabilities Long term debt deferred tax liabilities and other obligations due beyond one year Equity The residual interest in the assets of the company after deducting liabilities Common Stock Value of issued shares Retained Earnings Cumulative net income minus dividends paid Additional Paid In Capital Funds received from shareholders above the nominal value of shares

Significance It helps assess the company s financial stability and liquidity by showing its assets liabilities and shareholders equity It provides insight into the company s ability to meet short term and long term obligations

3 Cash Flow Statement Purpose The cash flow statement tracks the inflows and outflows of cash within a company over a period

Components Operating Activities Cash flows from the core business operations including receipts from sales and payments for operating expenses Adjustments are made for non cash items such as depreciation and changes in working capital Investing Activities Cash flows related to the acquisition and disposal of long term assets such as property equipment and investments Financing Activities Cash flows from transactions with shareholders and creditors including issuing or repurchasing stock borrowing and repaying debt

Significance It provides insights into the company s cash management and liquidity It shows how cash is generated and used in operating investing and financing activities helping assess the company s ability to maintain and grow operations pay debts and return value to shareholders

These three statements together offer a comprehensive view of a company s financial health
