Rabindranath Tagore was one of the most leading poets in the history of the world literature. He was at the same time a poet, a novelist, a dramatist, a philosopher and a musician. He was born in the renowned Tagore family on 7 May, 1861. After the completion of his house education, he was sent to school. But he did not like institutional education. So, arrangements were made at house for his proper education. In his thirteenth year, Rabindranath along with his father went to visit the Himalayas. At the age of seventeen, he was sent to London to study law. But he studied literature with Professor Henry Morley only for a few months and then returned home. Only at the age of eight, he started composing poems. He wrote his poetic novel 'Banaful' at the age of fifteen. When he was sixteen, his poems and essays were being published in journals. After returning from England, he began to write tirelessly in all branches of literature. In 1911, he translated his poems of 'Gitanjali' into English, which brought him the highest honour in the form of the Nobel Prize in 1913.

One year after his awarding of the Nobel Prize, he was made a knight by the British Government which he rejected as a protest against the atrocities of the British Government at Jallianwala Bagh. The University of Oxford honoured him with D Lit in 1940. Earlier in 1921, he laid the foundation of Viswa Bharati. At the age of 80, Rabindranath Tagore breathed his last.

Council to address the accuracy of the estimates from the two data sources and the factors that influence the estimates The resulting book also considers means of increasing the accuracy of the data sources or alternative data sources that could be used for allocation purposes **November 2019 Monthly Current Affairs with MCQs for Competitive Exams** Disha Experts,2019-10-21
