Eu-china Relationship, The: European Perspectives - A Manual For Policy Makers Kerry Brown, 2014-11-27 This book brings together 30 papers commissioned from 2011 to 2013 by the EU funded Europe China Research and Advice Network ECRAN. These papers thematically grouped in sections on economics, society and politics were written by some of the world's leading China experts in Europe and give a European perspective of this complex relationship. The papers provide a broad overview of how Europeans see the key challenges currently faced by China and Europe as well as a unique insight into the related policy aspects of the vexed and complex relationship of the two largest trading partners in the world. The EU China Relationship European Perspectives is written in a highly pragmatic manner focusing on specific political, economic and social issues that impact on international relations. It is an essential EU toolkit and policy handbook for academics and policy makers in government and business who are engaging with China not just in the EU but across the world.

G. Goodman, 2012. This unique and fascinating book explores three decades of economic change in China and the consequent transformation of class relations and class consciousness in villages and in the urban workplace. The expert contributors illustrate how the development of the urban economic environment has led to changes in the urban working class through an exploration of the workplace experiences of rural migrant workers and of the plight of the old working class in the state owned sector. They address questions on the extent to which migrant workers have become a new working class, are absorbed into the old working class or simply remain as migrant workers. Changes in class relations in villages in the urban periphery _ where the urbanization drive and in migration has led to a new local politics of class differentiation _ are also raised. Presenting new original field research detailing social and socio economic change in China, this book will prove invaluable to scholars, researchers and postgraduate students with an interest in Asian studies, public policy, regional and urban studies, political science or sociology.
