2010 Trial Examination Limpopo:

Men at Risk Shari L. Dworkin, 2015-12-04 Presents a unique approach to HIV prevention at the intersection of sociological and public health research Although the first AIDS cases were attributed to men having sex with men over 70% of HIV infections worldwide are now estimated to occur through sex between women and men In **Men at Risk** Shari L. Dworkin argues that the centrality of heterosexual relationship dynamics to the transmission of HIV means that both women and men need to be taken into account in gender specific HIV AIDS prevention interventions She looks at the costs of masculinity that shape men's HIV risks such as their initiation of sex and their increased status from sex with multiple partners Engaging with the common paradigm in HIV research that portrays only women and not heterosexually active men as being vulnerable to HIV Dworkin examines the gaps in public health knowledge that result in substandard treatment for HIV transmission and infection among heterosexual men both domestically and globally She examines a vast array of structural factors that shape men's HIV transmission risks and also focuses on a relatively new category of global health programs with men known as gender transformative that seeks to move men in the direction of gender equality in the name of improved health Dworkin makes suggestions for the next generation of gender transformative health interventions by calling for masculinities based and structurally driven HIV prevention programming Thoroughly researched and theoretically grounded **Men at Risk** presents a unique approach to HIV prevention at the intersection of sociological and public health research

Radiology in Global Health Daniel J. Mollura, Anne-Marie Lugossy, Lauren Fuller Kulinski, 2025-07-14 This third edition provides a definitive comprehensive and multidisciplinary reference for a diverse healthcare audience to navigate the complexities of radiology service planning implementation and diagnostics in low and middle income countries LMICs and resource limited medically underserved regions This book integrates clinical approaches with concepts of project planning to assist radiology professionals public health specialists and students to implement medical imaging in under served and resource constrained contexts to improve global health outcomes and optimize the use of radiologic technologies The first section of the book introduces the general role of radiology in international public health to help readers i understand the impact of medical imaging on health disparity ii learn how to assess radiologic service infrastructure in low resource environments and iii learn how to plan projects aiming to address health care shortages The second section of the book presents clinical contexts for deploying radiology such as pediatrics trauma infectious disease and cancer control Themes from the two sections are interwoven so that the learner can integrate concepts of project development with clinical objectives For example the chapter on information technology IT reinforces the chapter on cancer control by addressing IT solutions applicable to cancer management in medically underserved areas All chapters have been fully updated and this edition adds chapters on artificial intelligence COVID and breast imaging as well as others This is an ideal guide for radiologists and medical professionals working in LMICs and resource limited medically underserved regions

In a Rain of

Dust David Kinley,2025-05-13 An inside story of asbestos death and the fight for justice by thousands of South Africans against a multinational mining corporation intent on denying responsibility For nearly 90 years a British company called Cape used local labor to mine and mill asbestos in South Africa Poor and mostly black men women and children some as young as seven worked every day in clouds of asbestos dust that they carried home to their families caked onto their skin hair and clothes The appalling levels of disease and death in these communities caused by asbestos exposure were heartbreaking In 1995 Richard Meeran a young British lawyer with Indian and African roots driven by his own experiences of racism in England embarked on a David and Goliath battle against the company and its top tier legal team to hold them accountable David Kinley s In a Rain of Dust tells the harrowing story of this international legal drama Facing deep pocketed opponents and a century of established legal precedent Meeran s case before the UK courts seemed hopeless But after nine years of painstaking investigation agonizing setbacks vaudevillian escapades and unlikely champions Meeran prevailed Drawing on dozens of interviews with key players and countless hours poring over thousands of documents across three continents Kinley reveals an epic tale of triumph and justice against all odds He also highlights the profound political implications that victims faced in the newly post Apartheid South Africa where the case was widely seen as a test of racial as well as economic redemption Asbestos mining in South Africa left a legacy of callous neglect suffering and corporate coverups Working conditions in the country s asbestos mines and mills described as a never ending rain of dust persisted for two decades after they had been outlawed in the United Kingdom and the United States Meeran s case against Cape represented a turning point in making corporations pay for their human rights abuses overseas and its impact helped launch the global corporate social responsibility movement that continues today Pharmacological and Non-Pharmacological

Therapy for Obesity and Diabetes, volume II Guilherme Zweig Rocha,Alexandre Gabarra Oliveira,Bruno Melo Carvalho,2024-02-02 Given the success of the previous collection Pharmacological and Non Pharmacological Therapy for Obesity and Diabetes we are pleased to announce the launch of Volume II Overweight and obesity are defined as abnormal or excessive fat accumulation that may induce inflammation and impair health leading to metabolic syndrome and diabetes Their prevalence is increasing and is considered a major public health concern in the 21st century While numerous mechanisms have been proposed for this epidemic of obesity it is well agreed upon that lack of physical activity and high calorie intake plays causal roles Understanding the causes that lead to obesity and also its prevention or reversion are of public health priority This could be managed by either modification of lifestyle through physical activity to restore energy balance or reduction of calorie intake proper diet that is rich in fiber increasing energy outlay or using adequate medication
