Certification and Collective Marks Jeffrey Belson, 2017-10-27 *Certification and Collective Marks* is a thoroughly updated and augmented edition of *Certification Marks* first published in 2002. This comprehensive study forms a wide ranging inquiry with comparisons of the certification and collective mark systems of the UK, EU and US whilst also referring to other systems. In addition to the laws and policies impacting ownership and use of these marks also addressed are their historical development, registration and protection, certifiers liability, legal and commercial significance, use in regulatory and technical standardization frameworks and emergent sui generis forms of certification namely ecolabels and electronic authentication marks in digital content. This publication is especially timely in light of the advent of the EU certification mark and the controversial EU proposals to extend the Geographical Indications system to include non agri food products.
