Goodman, 1991 **Consumers Index to Product Evaluations and Information Sources**, 1999 *Automotive News*, 2008 *Car Safety Wars* Michael R. Lemov, 2015-03-19 Car Safety Wars is a gripping history of the hundred year struggle to improve the safety of American automobiles and save lives on the highways Described as the equivalent of war by the Supreme Court the battle involved the automobile industry unsung and long forgotten safety heroes at least six US Presidents a reluctant Congress new auto technologies and most of all the mindset of the American public would they demand and be willing to pay for safer cars The Car Safety Wars were at first won by consumers and safety advocates The major victory was the enactment in 1966 of a ground breaking federal safety law The safety act was pushed through Congress over the bitter objections of car manufacturers by a major scandal involving General Motors its private detectives Ralph Nader and a gutty cigar chomping old politician The act is a success story for government safety regulation It has cut highway death and injury rates by over seventy percent in the years since its enactment saving more than two million lives and billions of taxpayer dollars But the car safety wars have never ended GM has recently been charged with covering up deadly defects resulting in multiple ignition switch shut offs Toyota has been fined for not reporting fatal unintended acceleration in many models Honda and other companies have for years sold cars incorporating defective air bags These current events suggesting a failure of safety regulation may serve to warn us that safety laws and agencies created with good intentions can be corrupted and strangled over time This book suggests ways to avoid this result but shows that safer cars and highways are a hard road to travel We are only part of the way home **Electric and Hybrid Cars** Curtis D. Anderson, Judy Anderson, 2010-03-30 This illustrated history chronicles electric and hybrid cars from the late 19th century to today s fuel cell and plug in automobiles It describes the politics technology marketing strategies and environmental issues that have impacted electric and hybrid cars research and development The important marketing shift from a woman s car to going green is discussed Milestone projects and technologies such as early batteries hydrogen and bio mass fuel cells the upsurge of hybrid vehicles and the various regulations and market forces that have shaped the industry are also covered **Ford Country** David Lanier Lewis, 1999 For a quarter of a century David L Lewis Ford Country column has been an eagerly anticipated feature in each issue of Cars Parts magazine With art authoritative yet breezy style he has established himself as an expert on all things Ford the family the company and the automobiles This second hardbound volume presents even more of Ford Country as it has appeared
